

# Emerging Markets Report: Silver and Gold

18.11.2020 | [GlobeNewswire](#)

ORLANDO, Nov. 18, 2020 - As the holidays loom near, assuredly the classic *Silver and Gold* will fill malls and elevators across the country. For today's featured company, [Blackrock Gold Corp.](#) (TSXV: BRC) (OTCQB: BKRRF), the lyrics of the song begin to tell the story.

*Silver and gold, silver and gold  
Ev'ryone wishes for silver and gold  
How do you measure its worth?  
Just by the pleasure it gives here on earth*

The simple lyrics aren't exactly a complicated homage to the metals but it does remind us that gold and silver have been investment staples for most of modern history, celebrated as safe havens and long-term growth investments. That truism is presently demonstrated wherein gold is up nearly 28% over the last year and silver is up 43% over the past six months.

Take a look at the last few months of Blackrock news regarding their drilling program:

[Blackrock Drills 4,643 g/t Silver Eq. over 1.5m Within 3m of 2,466 g/t Silver Eq. and Successfully Steps Out 500m at Tonopah West](#); Link to story

[Blackrock Gold Makes Second Discovery Drilling 2,215 g/t Silver Eq. over 3 Metres Within 4.6 Metres of 1,577 g/t Silver Eq. at Tonopah West](#); Link to story

It is worth noting that the Company is enthusiastic about its Silver Cloud property located along the well-established Northern Nevada Rift gold trend in north-central Nevada. Here's a brief excerpt from the most recent Silver Cloud release:

Management has always had unwavering belief in the prospectively of Silver Cloud, in fact, it's the reason why I joined the Company in the first place, and armed with a plethora of new data, we're excited to bring the most expansive drill program that the project has seen since 2002; stated Andrew Pollard, President & CEO.
