

Lake Winn Resources Corp. Receives Exploration Permits & Stakes Additional Mineral Claims

30.11.2020 | [The Newswire](#)

Vancouver, Nov. 30, 2020 - [Lake Winn Resources Corp.](#) ("Lake Winn" or the "Company") (TSSV:LWR) (OTC:EQTXF) is pleased to announce that it has received all work permits for the Cloud Project, near Flin Flon, Manitoba. The permit allows for exploration activities, including drilling, trenching, and geophysical line cutting.

On the strength of receiving the permits the company immediately began organizing a drill program which will commence as soon as possible.

Lake Winn elected to increase its land holdings in the area by staking total of 6 additional claims, the total area of the Cloud project is now 1469 hectares (14.69 km²), more than tripling the size of the original holdings.

As well as securing a comfortable area for mine development should our exploration efforts prove successful the new staking includes historic drill holes that included gold intercepts and extensions of the same geology hosting the gold zone.

Qualified Person

The Qualified Person for this news release is Buddy Doyle, AUSIMM, a Geologist of over 30 years' experience in mineral exploration, discovery, and evaluation. A Qualified Person under the provisions of National Instrument 43-101.

About Lake Winn

[Lake Winn Resources Corp.](#), is a Vancouver based gold company, listed on the TSX Venture Exchange (Symbol: LWR) focusing on exploration and development of gold projects in Canada. The company's flagship property, the Cloud Project is in the province of Manitoba, in the Flin Flon Area approximately 40 kilometers north-east of the town of Flin-Flon. Access to the property is provided by Manitoba highway 10 to the all-weather Kississing Lake Road. The company is currently preparing for diamond drilling.
