

# St. James Gold Corp. Announces the Appointment of a Qualified Person, Stewart A. Jackson, PhD., to the Role of Senior Technical Advisor

22.12.2020 | [CNW](#)

VANCOUVER, Dec. 22, 2020 - [St. James Gold Corp.](#) (TSX-V: LORD) (OTC: LRDJF) (the "Company") is pleased to announce the appointment of Dr. Stewart A. Jackson, P. Geo., as its Qualified Person within the meaning of National Instrument 43-101 &#8211; Standards of Disclosure for Mineral Projects ("NI 43-101") effective December 21, 2020. In this capacity, as Senior Technical Advisor, he will provide technical expertise on corporate matters, guide the Company's gold exploration properties in Newfoundland, and initiate and identify additional potential acquisition targets in North America.

Over a career spanning several decades, Stewart Jackson, Ph D. was involved in the discovery and development of several major resource discoveries including the multi-billion dollar Red Dog zinc-lead deposits in Northwestern Alaska, currently operated by Teck; the Viken deposit in Sweden containing over 1 billion pounds of U3O8 and a multi-billion pound resource of molybdenum, vanadium, and nickel and zinc; and the Turnagain nickel-cobalt-platinum deposit at Dease Lake, British Columbia, from prospect to that of a large nickel resource, currently held by Giga Metals.

Dr. Jackson was also the exploration manager for Houston Oil and Minerals during the discovery and development of the Borealis, South McCoy and Manhattan gold deposits in Nevada, USA, founded Crown Resource Corporation in 1981, and discovered several million ounces of gold in the Republic District of Washington, USA, at the Buckhorn Mine, Seattle Mine, South Penn, Key East, Key West, Overlook, Lamfoot, Kettle River, and K2 mines, all produced by Kinross Gold. As an executive, Dr. Jackson has also raised \$200 million for the discovery and development of these and other gold, silver, diamonds, base metals, nickel and uranium projects.

As stated by George Drazenovic, CEO of [St. James Gold Corp.](#), "Dr. Jackson has deep experience in identifying and developing regional gold exploration opportunities throughout North America, including, among others, the Tintina Belt in the Yukon, the Carlin Trend in Nevada and Red Lake in Ontario. Dr. Jackson also brings senior leadership and corporate expertise at the CEO and Director level presiding over multiple mineral discoveries and evaluations, including Northwestern Alaska, the Yukon and Northern British Columbia. With his exceptional record of exploration and development for base and precious metal mineral deposits in a variety of environments, we are excited to have him be part of our team as we expand our activities in one of North America's fastest growing gold exploration regions, Newfoundland, and beyond."

Dr. Jackson is a Professional Geologist in the Province of Ontario, Canada. He holds a B.Sc. in Geology from the University of Western Ontario, an M.Sc. in Stratigraphy and Mineral Deposits from the University of Toronto, and a Ph.D in Stratigraphy and Economic Geology from the University of Alberta. He is a member of several scientific and professional organizations and has authored several geological papers.

About St. James Gold Corp.

[St. James Gold Corp.](#) is a mineral exploration company focused on the acquisition, exploration and development of precious metal projects in North America. The Company is actively looking to acquire valuable and high quality projects. The Company is based in Vancouver, British Columbia, and is listed on the TSX Venture under the symbol "LORD" and in the U.S. Otcmarkets under "LRDJF".

## Forward-Looking Statements

Information set forth in this news release contains forward-looking statements that are based on assumptions as of the date of this news release. These statements reflect management's current estimates, beliefs, intentions and expectations. They are not guarantees of future performance. The Company cautions that all forward looking statements are inherently uncertain and that actual performance may be affected by a number of material factors, many of which are beyond the Company's control in particular, the fact that the Company is reviewing potential mineral property acquisitions is not an assurance that a suitable acquisition will be found. Even if the Company is successful in making an acquisition, it may require additional financing to carry out exploration and development objectives on the property. Such other factors include, obtaining the necessary permits to carry out its activities and the need to comply with environmental and governmental regulations. Accordingly, actual and future events, conditions and results may differ materially from the estimates, beliefs, intentions and expectations expressed or implied in the forward-looking information. Except as required under applicable securities legislation, the Company undertakes no obligation to publicly update or revise forward-looking information.
