In addition, ShaMaran is also pleased to announce that the Atrush field total cumulative crude oil production has exceeded 40 million barrels. The Atrush field is located 85 km northwest of Erbil and is one of the largest new oil developments in the Kurdistan Region of Iraq. The field was first discovered in 2011 and oil production started in July 2017. In its fourth year of production, the Atrush field has sold all its production to the Kurdistan Regional Government of Iraq at international market prices less a discount based on quality and transportation charges.

ShaMaran President and Chief Executive Officer Dr. Adel Chaouch said, "Following a challenging 2020 for the oil industry in Kurdistan, ShaMaran is pleased to start off 2021 with the full and timely payment of the semi-annual interest owed to our Bondholders. Our achievement of this 40 million barrel production milestone also demonstrates the ability of Atrush field to maintain stable production even through the past difficult times. We look forward to future achievements."
