

Trans Tanada Gold Corp. Announces Name Change and New Stock Symbol TSX-V: TTG

09.01.2021 | [vom Unternehmen](#)

VANCOUVER, January 8th, 2021 – [Trans Tanada Gold Corp.](#) (TSX-V: TTG) (formerly Arctic Hunter Energy Inc.) (the “Company”) is pleased to announce that it has completed its name change from Arctic Hunter Energy Inc. to Trans Canada Gold Corp.

At the opening of the markets on January 13, 2021, the Company’s common shares will commence trading under the new name Trans Canada Gold Corp. and the new stock symbol “TTG”. The Company’s new CUSIP number is 893129106 and its new ISIN number is CA8931291063.

There is no consolidation of the Company’s share capital in connection with the name change. As a result, shareholders are not required to exchange their existing share certificates for new certificates bearing the Company’s new name. The name change does not affect the Company’s share structure or the rights of the Company’s shareholders, and no further action is required by existing shareholders.

TRANS CANADA GOLD PROJECT – THE DINORWIC GOLD PROPERTY

The Trans-Canada Gold Property consists of 741 non-surveyed contiguous mineral cell claims totaling 14,880 hectares located within the Kenora Mining Division of Ontario. The property is located within the Wabigoon Greenstone Belt, which also contains the Thunder Lake Gold deposit and the Goldlund Gold Deposit. The Property contains a number of large shear zones containing quartz carbonate veins, pyrite and arsenopyrite, underlain by mafic volcanics with felsic volcanics in the south. There is a large regional scale iron carbonate alteration within the property, which is considered to be similar to that of the Red Lake Mining Camp. The regional scale Carbonate alteration within the property associated with shear zones within iron-tholeiite are prime targets for gold exploration.

The property has excellent access, with the Trans-Canada highway bisecting multiple high priority targets in a north-south direction, as well as close proximity to the large community of Dryden, Ontario. The property has access to first class infrastructure, with close proximity to a number of rail corridors and power lines. A number of gold exploration targets have been identified within the property based on their association with regional alteration, known gold showings, shear zones, complex patterns and offsets in the regional magnetic map as well as spatial association with regional structures that has the potential to be well endowed with gold mineralization.

Colin Bowdidge, Ph.D., P.Geo., a Qualified Person as defined by National Instrument 43-101, has reviewed and approved of the technical information disclosed in the news release.

ABOUT TRANS CANADA GOLD CORP. – GOLD MINERAL EXPLORATION/ OIL & GAS PRODUCTION

The Company is a Canadian Gold and Mineral exploration and Oil & Gas Resource Development Company that is currently focused on developing its’ District Scale Gold exploration project in Ontario, and increasing its production capabilities, obtaining potential future oil production revenues. The Company identifies, acquires and finances the acquisition of gold exploration properties and the ongoing development of mining and oil and gas assets primarily situated in Canada, a time-honored safe mineral exploration jurisdiction.

The Company is currently reviewing a number of District Scale gold mineral exploration property opportunities and identifying low risk exploration opportunities through selective acquisitions and development of mining exploration assets situated in these favorable resource jurisdictions. The Company has qualified Senior exploration management and Geological Mining teams of professionals, seasoned in exploration production, field exploration and drilling. The Company has the necessary manpower in place to develop its natural resource properties and manage its production properties. The Company is committed to minimizing risk through the selective property acquisitions, and responsible exploration and development of mining, and petroleum and natural gas resource assets.
