

# Origen Resources Options Broken Handle Property to Hawthorn Resources

14.01.2021 | [Newsfile](#)

Vancouver, January 14, 2021 - [Origen Resources Inc.](#) (CSE: ORGN) (FSE: 4VX) (the "Company" or "Origen") is pleased to announce that it has entered into an agreement with Hawthorn Resources Corp., ("Hawthorn") a private British Columbia Corporation engaged in mineral exploration, to acquire a 75% interest in its Broken Handle project located 50km north of Grand Forks, BC.

"The business plan adopted at the Company's inception of partnering with capable groups to advance certain assets is starting to gain momentum. The signing of this option agreement with Hawthorn is yet another milestone achieved in generating value for our shareholders," states Blake Morgan, President.

## Option Terms

Hawthorn can earn a 75% interest in the Broken Handle property by paying Origen a total of \$250,000, issuing 1 million shares and incurring expenditures of \$500,000 over a 3 year period. Hawthorn intends on applying for a listing on a Canadian stock exchange in the near future.

Origen and Hawthorn have one common director whom has abstained from board voting in relation to this transaction.

## About the Broken Handle Project

Located 50km north of Grand Forks B.C. the Broken Handle project covers historical and new mineral showings similar in nature to those found at the prolific Franklin Camp<sup>1</sup> located 3 km north. Over a 76 year period, the Franklin Camp produced greater than 1,392,000 oz. Ag and 55,500 oz Au<sup>2</sup> (UNION Minfile 082ENE003 Production Detail Report). Two distinct styles of mineralization are evident at the Project; polymetallic epithermal veins (Ag-Pb-Zn-Cu +/- Au), potentially related to the regional Granby Fault and Cu-Pb-Zn-Ag-Au skarns associated with limestone and marble lenses in contact with intrusive rocks.

Exploration work over the last two years resulted in the discovery of several new showings, and the rediscovery of old mineral workings. The most significant achievement was locating the Morrell Camp that is a series of mineralized historical workings that have not seen exploration work since the late 1920s.

Patrick McLaughlin, P Geo., a Qualified Person as that term is defined in NI 43-101 has prepared, supervised the preparation or approved the scientific and technical disclosure in the news release.

## About Origen

Origen is an exploration company engaged in generating, acquiring and advancing base and precious metal properties. The Company currently holds a property portfolio of four 100% owned precious and base metal projects in southern British Columbia including a 100% interest in the 26,771 ha LGM project and an option to acquire a 100% interest in the 3,971 ha Wishbone property in the mineral rich Golden Triangle of British Columbia and a 100% interest in the Middle Ridge Pond project in Newfoundland.

On behalf of Origen,

Blake Morgan

President
