

Walcott Resources Reports 504 g/t Silver, 0.22% Copper, 6.44% Lead and 9.57% Zinc, adjacent to the Historic Burra Silver Mine at Tyr Project

03.02.2021 | [CNW](#)

VANCOUVER, Feb. 3, 2021 - [Walcott Resources Ltd.](#) (CSE: WAL) (FSE: WR2) (OTCPINK: WALRF) (the "Company" or "Walcott") announces that surface sampling field work and evaluation has been finalized at its 60% owned Tyr Silver Zinc project ("TSZP") in north-northeast New South Wales, Australia.

Highlights:

- 504g/t Silver, 0.22% Cu, 6.44% Pb and 9.57% Zn - mine dump grab sample
- 389g/t Silver, 0.63% Cu, 2.64% Pb and 10.95% Zn - mine dump grab sample
- 355g/t Silver, 0.04% Cu, 1.70% Pb and 0.14% Zn - mine dump grab sample
- 43g/t Silver, 0.04%Cu, 1.22% Pb and 12.45% Zn -Burra mine adit

David Thornley-Hall, Director and CEO, states, "Our December 2020 program confirms encouraging silver mineralization across historic silver occurrences at our Tyr Silver Zinc project. We are pleased to see compelling high-grade values from both the historic Burra and Torny mine sites."

Technical and Environmental Background

The TSZP consists of over 300 square kilometres including two historic silver mines that were last operational between 1920 and 1935. The tenement was granted on the 29th of March 2018, for a period of 6 years. The project is located approximately 20kms southwest of the town of Tenterfield and is accessible via paved road.

Walcott has engaged Xplore Resources, geological consultants, of North Lakes, Queensland Australia to conduct the field program including stakeholder communications, review and verification of previously reported geological data.

Qualified Person

Mr. Geoffrey Reed (MAusMM (CP)) (MAIG), Consultant for the Company, is a qualified person as defined by National Instrument 43-101 - Standards of Disclosure or Mineral Projects and has prepared or reviewed the preparation of the scientific and technical information in this press release.

ON BEHALF OF THE BOARD OF DIRECTORS,
David Thornley-Hall, CEO and Director
604 306 7821

Walcott Resources Ltd. is a British Columbia based company involved in the acquisition and exploration of mineral properties in Canada and Australia. The Company holds an option to acquire a 100% undivided interest, subject to a 1.5% NSR on all base, trace earth elements and precious metals, in the Cobalt Hill copper-gold-cobalt property (the "Property"), consisting of eight mineral claims covering an area of approximately 1,727.43 hectares located in the Trail Creek Mining Division in the Province of British Columbia, Canada.

In addition, the Company has acquired 60% of two silver assets in Australia - the Tyr Silver Project in northern New South Wales and Century South Silver-Zinc Project in north-west Queensland.

The CSE does not accept responsibility for the adequacy or accuracy of this release.
 The Canadian Securities has neither approved nor disapproved the contents of this press release.

This press release includes "forward-looking information" that is subject to a number of assumptions, risks

and uncertainties, many of which are beyond the control of the Company. Forward-looking statements may include but are not limited to, statements relating to the trading of the Company's common shares on the Exchange and the Company's use of proceeds and are subject to all of the risks and uncertainties normally incident to such events.

Investors are cautioned that any such statements are not guarantees of future events and that actual events or developments may differ materially from those projected in the forward-looking statements. Such forward-looking statements represent management's best judgment based on information currently available.
