In Q3 Fiscal 2021, GC Mine sold approximately 201 thousand ounces of silver, 2.6 million pounds of lead, and 6.7 million pounds of zinc, compared to 234 thousand ounces of silver, 3.9 million pounds of lead, and 5.5 million pounds of zinc in Q3 Fiscal 2020.

Total and cash mining costs per tonne at the GC Mine in Q3 Fiscal 2021 were \$50.53 and \$41.47 per tonne, a decrease of 2% and 3%, respectively, compared to \$51.60 and \$42.96 per tonne in Q3 Fiscal 2020. The decrease in the cash mining cost was mainly due to a \$0.2 million decrease in mining preparation costs. Total and cash milling costs per tonne at the GC Mine in Q3 Fiscal 2021 were \$13.72 and \$12.60, a decrease of 10% and 10%, respectively, compared to \$15.20 and \$14.01 in Q3 Fiscal 2020.

The Company has been consistently active in exploring its existing mining permit areas through drilling and tunneling, with the objective of replacing the depleted ore. In recent years, the Company has embarked on a capital investment program at both of its mining operations with the objective of adding facilities and infrastructure that will enhance the environmental friendliness, safety, efficiency and future profitability of the mines. This program includes the excavation of additional access ramps and tunnels which are expected to facilitate the efficient movement of ore, equipment and personnel within the mines, as well as provide access to new areas of mineralization that may be suitable for mining in current and future periods. Depending on the extent of each project and the rate of development progress, the spending associated with these projects may be spread across several reporting periods until they are complete.

For Fiscal 2022, the Company plans to i) complete 6,600 metres of ramp development tunneling at estimated capitalized expenditures of \$5.6 million, representing a 20% decrease in meterage and a 19% decrease in total cost compared to Fiscal 2021 guidance; ii) complete 62,500 metres of exploration and other development tunneling at estimated capitalized expenditures of \$21.8 million, representing a 32% decrease in meterage and a 28% decrease in total cost compared to Fiscal 2021 guidance, and iii) spend \$7.3 million on equipment and facilities, an increase of 35% compared to Fiscal 2021 guidance. In addition, the Company plans to complete 50,000 metres of surface diamond drilling at estimated capitalized expenditures of \$3.5 million. The total capital expenditures are budgeted at \$38.2 million, representing a decrease of 10% compared to Fiscal 2021 annual guidance. The Company also plans to complete and expense 33,600 metres of mining preparation tunneling and 206,900 metres of underground diamond drilling. The table below summarizes the work plan and estimated capital expenditures in Fiscal 2022.

The cash production costs are expected to be \$55.7 to \$59.6 per tonne of ore, and the all-in sustaining costs are estimated at \$81.3 to \$85.6 per tonne of ore processed.

In Fiscal 2022, the GC Mine plans to i) complete 500 metres of ramp development tunneling at estimated capital expenditures of \$0.4 million, representing a 69% decrease in meterage and a decrease of 71% in total cost compared to its Fiscal 2021 guidance; ii) complete 10,300 metres of exploration and development tunneling at estimated capital expenditures of \$3.0 million, a 6% decrease in meterage and total cost; and iii) spend \$1.0 million on equipment and facilities, an increase of 70% compared to its Fiscal 2021 guidance. The total capital expenditures at the GC Mine are budgeted at \$4.4 million, a decrease of 19% compared to its Fiscal 2021 guidance. The GC Mine also plans to complete and expense 10,200 metres of mining preparation tunneling and 58,500 metres of underground diamond drilling.

## (c) Other Development Plans

In Fiscal 2022, the Company plans to commence a Phase I 10,000 metre drilling program at the La Yesca Silver Project in Mexico, which drill program is pending receipt of the necessary drilling permits from the respective Mexican government agencies. As a result, the budget for the drill program has not yet been

finalized.

The Company plans to initiate an extensive drilling campaign at the Zhonghe Silver Project, located approximately 75 km northeast of the Ying Mining District. The Company will formalize the plan and provide an update on the cost estimates with respect to the Zhonghe Silver Project once the mineral rights transfer contract is executed.

The Company is in the process of applying for permits to build a third tailings facility near the existing tailings facilities at the Ying Mining District. The Company is also considering plans to expand the current milling capacity or build a new mill for future production expansion at the Ying Mining District. There is potential to consolidate mineral properties near the Ying Mining District, or to process ore from the Zhonghe Silver Project during its development stage. The Company will provide further updates when plans and cost estimates are formalized.
