Harte Gold Files NI 43-101 Technical Report

Harte Gold is also pleased to announce that it has filed an updated technical report in accordance with National Instrument 43-101 - Standards of Disclosure for Mineral Projects ("NI 43-101") documenting the positive results of the feasibility study previously announced in the Company's news release dated January 20, 2021 to increase throughput at its Sugar Zone property in Ontario, Canada to 1,200 tpd (the "Technical Report").

The Technical Report, entitled "NI 43-101 Technical Report - Feasibility Study for Expansion to 1,200 t/d for the Sugar Zone Mine, Sault Ste. Marie Mining Division, Ontario" was prepared by Harte Gold. The Mineral Reserve estimate was prepared under the supervision of Mr. Chris McCann (P.Eng), Director of Technical Services for the Company. The Mineral Resource estimate was prepared by Mr. Vincent Cardin-Tremblay (P.Geo), former Vice President, Geological Services for the Company. Mr. McCann and Mr. Cardin-Tremblay are Qualified Persons for the purposes of NI 43-101.

The Technical Report has been filed with the relevant Canadian securities regulatory authorities in accordance with NI 43-101 and can be accessed on SEDAR (www.sedar.com) and on the Company's

website at www.hartegold.com.

ABOUT HARTE GOLD CORP.

Harte Gold holds a 100% interest in the Sugar Zone mine located in White River, Canada. The Sugar Zone Mine entered commercial production in 2019. Production guidance is 60,000 to 65,000 oz Au for 2021. The Company has further potential through exploration at the Sugar Zone Property, which encompasses 79,335 hectares covering a significant greenstone belt. Harte Gold trades on the TSX under the symbol "HRT", on the OTC under the symbol "HRTFF" and on the Frankfurt Exchange under the symbol "H4O".

CAUTIONARY NOTE REGARDING FORWARD-LOOKING INFORMATION

This news release includes "forward-looking statements", within the meaning of applicable securities legislation and include, but are not limited to, statements and information regarding the release of fourth quarter and full-year 2020 operating and financial results on March 24, 2021 and a conference call on March 25, 2021; gold production of between 60,000 to 65,000 oz Au for 2021; and the Company having further potential through exploration at the Sugar Zone Property. Forward-looking statements are based on the opinions and estimates of management and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as "seek", "anticipate", "budget", "plan", "continue", "estimate", "expect", "forecast", "may", "will", "project", "predict", "potential", "targeting", "intend", "could", "might", "should", "believe" and similar words suggesting future outcomes or statements regarding an outlook. Forward-looking statements are necessarily based upon a number of estimates and assumptions including material estimates and assumptions related to the factors set forth below that, while considered reasonable by the Company as at the date of this press release in light of management's experience and perception of current conditions and expected developments, are inherently subject to significant business, economic, and competitive uncertainties and contingencies. Known and unknown factors could cause actual results to differ materially from those projected in the forward-looking statements, and undue reliance should not be placed on such statements and information.

Such risks and uncertainties include, but are not limited to, there being no events of default or breaches of key financing agreements, including agreements with BNP Paribas and Appian; the Company being able to attract and retain qualified candidates to join the Company's management team and board of directors, risks associated with the mining industry, including operational risks in exploration, development and production; delays or changes in plans with respect to exploration or development projects or capital expenditures; the uncertainty of reserve estimates; the uncertainty of estimates and projections in relation to production, costs and expenses; the uncertainty surrounding the ability of the Company to obtain all permits, agreements, consents or authorizations required for its operations and activities; and health, safety and environmental risks, the risk of commodity price and foreign exchange rate fluctuations, the ability of Harte Gold to fund the capital and operating expenses necessary to achieve the business objectives of Harte Gold, the uncertainty associated with commercial negotiations and negotiating with contractors and other parties and risks associated with international business activities and the impact of any escalation in the severity of the COVID-19 pandemic on any of the foregoing, as well as other risks and uncertainties which are more fully described in the Company's Annual Information Form dated March 25, 2020, and in other filings of the Company with securities and regulatory authorities which are available on SEDAR at www.sedar.com.

Due to the risks, uncertainties and assumptions inherent in forward-looking statements, prospective investors in securities of the Company should not place undue reliance on these forward-looking statements.

Readers are cautioned that the foregoing list of risks, uncertainties and other factors are not exhaustive. The forward-looking statements contained in this news release are made as of the date hereof and the Company undertakes no obligation to update publicly or revise any forward-looking statements or in any other documents filed with Canadian securities regulatory authorities, whether as a result of new information, future events or otherwise, except in accordance with applicable securities laws. The forward-looking statements are expressly qualified by the cautionary statement.
