VANCOUVER, March 12, 2021 - [Sassy Resources Corp.](#) ("Sassy" or the "Company") (CSE:SASY) (FSE:4E7) (OTCQB:SSYRF) is pleased to announce that it has received permit approval from the province of Newfoundland and Labrador to undertake an exploration program including diamond drilling on the recently optioned Gander North group of claims. Approximately eight drill holes will be completed during a Phase 1 reconnaissance program to commence this spring as soon as conditions allow.

Gander North is situated approximately 15 km northeast of New Found Gold's (TSXV: NFG) Keats Zone and is intersected by a major regional fault zone (GRUB Line). Notably, Gander North features high historic gold-in-till anomalies up to 2 g/t along its western and northern boundaries. These till anomalies are coincident with a series of magnetic lineament structures, yet no drilling has ever been carried out at this property.
