About Pontus Protein Ltd.

Pontus Protein Ltd. is a Vancouver, B.C. based company that grows water lentil protein for commercial use. Pontus is reinventing agriculture with their proprietary Closed Environment Vertical Aquaponic System (CEVAS®) - the farming of the future. Pontus specializes in the indoor vertical farming of water lentils that use 95 percent less water than traditional agriculture and no pesticides or chemicals. Pontus is committed to solving the global food crisis by providing access to sustainable indoor biosecure pure plant based proteins. Pontus' water lentils can be harvested every 24 hours, exceed organic certification, and can be grown in any climate in a relatively small area. Our water lentil protein is filled with antioxidants, minerals, vitamins and all the amino acids, making a complete protein food source. Pontus aims to revolutionize the plant-based sector as the entire sector is currently based on two main protein sources: soy and pea. Lentil protein is far superior to pea and soy protein. It contains over 40% protein vs. 5-36% protein*, and Pontus aims at being the base protein for plant based food products, which will lead this movement that has begun in the world transitioning from meat based to plant based protein.
