During the first quarter of 2021, the mill processed approximately 324,600 tonnes, the average grade of ore milled was 11.36 grams per tonne, and average recovery was 87.8%.

Ron Hochstein, President and CEO commented, "Fruta del Norte has delivered strong production figures in its first quarter of 2021. The grades mined, recoveries and tonnes milled were all in line with expectations, and we remain firmly on track to meet our 2021 guidance of 380,000 - 420,000 oz gold produced with mill throughput expected to rise from 3,500 tonnes per day, to 4,200 tonnes per day in Q4 2021 upon completion of the mill expansion. I am very happy with how the year has begun and proud of what the team has achieved. Operational excellence is one of our four key growth pillars, and the team is focused on continuing to further optimize our operations."

Caution Regarding Forward-Looking Information and Statements

Certain of the information and statements in this press release are considered "forward-looking information" or "forward-looking statements" as those terms are defined under Canadian securities laws (collectively referred to as "forward-looking statements"). Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, identified by words or phrases such as "believes", "anticipates", "expects", "is expected", "scheduled", "estimates", "pending", "intends", "plans", "forecasts", "targets", or "hopes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "will", "should" "might", "will be taken", or "occur" and similar expressions) are not statements of historical fact and may be forward-looking statements. By their nature, forward-looking statements and information involve assumptions, inherent risks and uncertainties, many of which are difficult to predict, and are usually beyond the control of management, that could cause actual results to be materially different from those expressed by these forward-looking statements and information. Lundin Gold believes that the expectations reflected in this forward-looking information are reasonable, but no assurance can be given that these expectations will prove to be correct. Forward-looking information should not be unduly relied upon. This information speaks only as of the date of this press release, and the Company will not necessarily update this information, unless required to do so by securities laws.

This press release contains forward-looking information in a number of places, such as in statements relating to its 2021 production outlook, including estimates of gold production, and the expected timing of completion of the throughput expansion project. There can be no assurance that such statements will prove to be accurate, as Lundin Gold's actual results and future events could differ materially from those anticipated in this forward-looking information as a result of the factors discussed in the "Risk Factors" section in Lundin Gold's Annual Information Form dated March 2, 2021, which is available at www.lundingold.com or on SEDAR.

Lundin Gold's actual results could differ materially from those anticipated. Factors that could cause actual results to differ materially from any forward-looking statement or that could have a material impact on the Company or the trading price of its shares include: risks relating to the impacts of a pandemic virus outbreak, political and economic instability in Ecuador, production estimates, mining operations, the Company's community relationships, ability to maintain obligations or comply with debt, financing requirements, volatility in the price of gold, shortages of critical supplies, compliance with environmental laws and liability for environmental contamination, lack of availability of infrastructure, the Company's reliance on one mine, deficient or vulnerable title to concessions, easements and surface rights, uncertainty with the tax regime in Ecuador, the Company's workforce and its labour relations, inherent safety hazards and risks to the health and safety of the Company's employees and contractors, the Company's ability to obtain, maintain or renew regulatory approvals, permits and licenses, the imprecision of mineral reserve and resource estimates, key talent recruitment and retention of key personnel, volatility in the market price of the shares, the potential influence of the Company's largest shareholders, measures to protect endangered species and critical habitats, the reliance of the Company on its information systems and the risk of cyber-attacks on those systems, the cost of non-compliance and compliance costs, exploration and development risks, risks related to illegal mining, the adequacy of the Company's insurance, uncertainty as to reclamation and decommissioning, the ability of Lundin Gold to ensure compliance with anti-bribery and anti-corruption laws,

the uncertainty regarding risks posed by climate change, the potential for litigation, limits of disclosure and internal controls, security risks to the Company, its assets and its personnel, conflicts of interest, risks that the Company will not declare dividends and social media and reputation.
