

Green Battery Minerals Announces OTCQB Listing and Presenting at the Planet MicroCap Presentation

21.04.2021 | [The Newswire](#)

[Green Battery Minerals Inc.](#) (TSXV:GEM) (FSE:BK2P) (WKN:A2QENP) (OTC:GBMIF) ("Green Battery" or the "Company") is pleased to announce that it has applied for and received an OTCQB Markets Group symbol, and to be eventually traded on the OTCQB Market under the new ticker symbol ("GBMIF").

The OTCQB is a marketplace for entrepreneurial and development stage U.S. and international companies that are committed to providing a high-quality trading and information experience for their investors. To be eligible, companies must be current in their financial reporting, pass a minimum bid price test, and undergo an annual company verification and management certification process.

KEY BENEFITS

Efficient Market Standards: Multiple reporting standards give companies the flexibility to control reporting costs and complexity, while still providing investors with a premium market for their securities.

Better Information: OTCQB is recognized by the SEC as an established public market. Their platform enables companies to provide current public information that investors need to analyze, value and trade a security.

Visibility: A large network of data distributors and media partners ensures that trade data, news and disclosure are available to broker-dealers, market data providers, and investors.

Better Trading: Investors get an exchange-comparable information experience, with convenient trading through their preferred broker or financial advisor, transparent pricing with real-time quotes, and trusted disclosure.

Real-Time Level 2 Quotes: Provide investors with insight into your available liquidity and depth of market in your security, including all broker-dealer bid & ask prices and sizes.

Blue Sky: Being Blue Sky compliant in states where your investors reside may help increase liquidity and expand investment advisors' ability to research and recommend your security.

The common shares of the Company will continue to trade on the TSX Venture Exchange under the symbol "GEM" and on the Frankfurt exchange under the symbols FSE: BK2P, WKN: A2QENP.

About the Company: Green Battery Minerals is managed by a team with over 150 years collectively with a proven track record of not just finding numerous mines but building and operating them too. The Green Battery Mineral management team's most recent success is the discovery of the Berkwood Graphite resource in Northern Quebec. Green Battery Mineral owns this asset 100 percent and the Company's shareholders should benefit from this asset as the demand for Graphite for electric vehicles increases significantly.

On Behalf of the Board of Directors

Green Battery Minerals Inc.

'Thomas Yingling'

President, CEO & Director
