About First Vanadium Corp.

First Vanadium has pivoted to its gold opportunity on the Carlin Vanadium-Gold Project located 6 miles south from the town of Carlin, Nevada on the Carlin Gold Trend. From the Company's first hole announced in early November 2020 in the gold target, it has identified a large-scale Carlin-type gold system, led by renowned mine finder, Dave Mathewson. Vector drilling will commence in May. The same property also hosts North America's largest primary vanadium resource.

About Virtual Investor Conferences®

Virtual Investor Conferences (VIC) is the leading proprietary investor conference series that provides an interactive forum for publicly-traded companies to meet and present directly with investors.

A real-time solution for investor engagement, Virtual Investor Conferences is part of OTC Market Group's suite of investor relations services specifically designed for more efficient Investor Access. Replicating the look and feel of on-site investor conferences, Virtual Investor Conferences combine leading-edge conferencing and investor communications capabilities with a comprehensive global investor audience network.
