

# Golden Lake Receives Approval to Drill on BLM Lands on the Jewel Ridge Property

27.05.2021 | [ACCESS Newswire](#)

VANCOUVER, May 27, 2021 - [Golden Lake Exploration Inc.](#) (CSE:GLM) ("GLM" or the "Company")(OTCQB:GOLXF) is pleased to announce it has received approval from the BLM for its near-term proposed exploration and drill plan under a "Notice of Intent" ("NOI"), which is limited to five acres of surface disturbance. EM Strategies, based in Reno, Nevada, assisted with the application. The planned surface disturbance included under this Notice consists of constructed drill sites including sumps, improvements to existing roads, and overland travel routes, with planned surface disturbance of approximately 2.49 acres, in the Eureka Tunnel target area. Under the Notice the Company has proposed 35 drill sites. The Eureka Tunnel target covers the carbonate replacement deposit (CRD) bonanza mineralization intersected in hole JR-20-12DD which returned from 15.21 metres to 18.44 metres returned 3.23 metres averaging 57.16 grams per tonne (g/t) gold (Au), 452.0 g/t silver (Ag), 7.23 per cent lead (Pb) and 11.99 per cent zinc (Zn) (see Press Release, February 23<sup>rd</sup>, 2021).

Mike England, CEO, stated "Securing approval to drill on BLM land is a significant outcome for GLM as the BLM lands are very proximal to our Bonanza hole announced in February. This considerably enhances the opportunities we are pursuing at the Jewel Ridge Project. With drilling underway this immediately gives us the freedom to drill any and all targets plotted to date in the area. Samples from the first two holes have been submitted to the laboratory for analysis."
