Further Information

About Gabriel

Gabriel is a Canadian resource company listed on the TSX Venture Exchange. The Company's principal focus has been the exploration and development of the Ro?ia Montan? gold and silver project in Romania. The Ro?ia Montan? Project, one of the largest undeveloped gold deposits in Europe, is situated in the South Apuseni Mountains of Transylvania, Romania, an historic and prolific mining district that since pre-Roman times has been mined intermittently for over 2,000 years. The exploitation license for the Ro?ia Montan? Project is held by Ro?ia Montan? Gold Corporation S.A., a Romanian company in which Gabriel owns an 80.69% equity interest, with the 19.31% balance held by Minvest Ro?ia Montan? S.A., a Romanian state-owned mining company.

Upon obtaining the License in June 1999, the Group focused substantially all of their management and financial resources on the exploration, feasibility and subsequent development of the Ro?ia Montan? Project. Despite the Company's fulfilment of its legal obligations and its development of the Ro?ia Montan? Project as a high-quality, sustainable and environmentally-responsible mining project, using best available techniques, Romania has blocked and prevented implementation of the Ro?ia Montan? Project without due process and without compensation. Accordingly, the Company's current core focus is the ICSID Arbitration. - volatility of currency exchange rates; and
- the availability and continued participation in operational or other matters pertaining to the Group of certain key employees and consultants.
