

CopAur Minerals Commences Drilling At The Williams Copper-Gold Project in the Toodoggone Region In British Columbia

14.06.2021 | [Newsfile](#)

Vancouver, June 14, 2021 - [CopAur Minerals Inc.](#) (TSXV: CPAU) (the "Company") is pleased to announce that drilling has commenced on the Williams Property in the Toodoggone region within the prolific Golden Horseshoe of north central British Columbia. The Williams property is located halfway between the Red Chris mine and Kemess North mine, and on trend with the 3 million ounce Lawyers Gold-silver deposit. The company plans to drill 5,000m initially targeting two mineralization opportunities. The T-Bill and the GIC. this season.

Initial drilling has commenced at the T-Bill, targeting mesothermal gold style mineralization. The T-Bill was first drilled by Cominco in 1983-1984 (See News Release Sept. 1, 2020 for historic results). Several historic holes intersected both high-grade and bulk tonnage gold mineralization to depths of 200m or less. The company expects to both define and expand this drilling which is open along strike and at depth with holes up to 400m in depth.

The T-Bill drilling will be followed by drilling at the GIC Copper-Gold porphyry prospect, which is a porphyry copper-gold target, where soil sampling has identified a strong copper-gold soil geochemical anomaly.

Jeremy Yaseniuk CEO of CopAur said, "We are incredibly pleased to be testing these promising targets so early in the season. I want to thank our technical team for your work, and our investors and financial backers for your support. This is an exciting year for CopAur."

About CopAur Minerals Inc.

CPAU is an exploration company focused on advancing orogenic gold and copper porphyry targets on the William gold copper project, located within the prolific Golden Horseshoe of northern British Columbia, Canada. CopAur Minerals is ideally situated within the emerging Toodoggone District along the eastern Cordilleran gold belt, composed of the Sheep Creek, Cariboo, and Cassiar orogenic gold districts Backed by a dynamic and experienced team of resource sector professionals, including members of [Benchmark Metals Inc.](#) (TSXV: BNCH) on its Advisory Board. The Williams project represents exceptional shareholder value with significant gold and copper potential.

On Behalf Of The Board Of Directors,
Jeremy Yaseniuk, CEO
