17.06.2021 | [GlobeNewswire](#)

VANCOUVER, June 17, 2021 – [Alpha Lithium Corporation](#) (TSX.V: ALLI) (OTC: ALLIF) (Frankfurt: 2P62) (“Alpha” or the “Company”), is pleased to announce that it has entered into an arrangement agreement with its wholly-owned subsidiaries, Voltaic Minerals (USA), Inc. (“Voltaic”) and [Beta Energy Corp.](#) (“Beta”) to undertake a spin-out transaction that would reorganize the business and capital structure of the Company to spinout its Green Energy Project located in Grand County, Utah (the “Green Energy Project”).

The proposed spin-out transaction will be completed by way of a Plan of Arrangement to be completed under the Business Corporations Act (British Columbia) (the “Proposed Arrangement”).

Pursuant to the Proposed Arrangement, Alpha will transfer to Beta, a wholly-owned subsidiary of Alpha incorporated for the purposes of the Spin-out Transaction: (i) all of the Company’s legal and beneficial interests in the Green Energy Project, including all of the shares of Voltaic; and (ii) \$5.0 million, in exchange for common shares of Beta (“Beta Shares”).

It is intended that, as part of the reorganization, the Company’s current shareholders will receive shares of Beta in proportion to their shareholdings in Alpha on the basis of 0.1 of a Beta Share for each common share of Alpha held.

The Proposed Arrangement remains conditional on the approval of the shareholders of Alpha and the approval of the TSX Venture Exchange and Supreme Court of British Columbia, among other things.
