

Manitou Gold Provides Update Regarding Upcoming Annual Meeting

18.06.2021 | [GlobeNewswire](#)

SUDBURY, June 18, 2021 - [Manitou Gold Inc.](#) (TSX-V: MTU) (the "Company" or "Manitou") announces instructions for participation in the annual and special shareholders meeting (the "Meeting") to be held on Wednesday, June 23 at 3pm EDT.

To proactively deal with the unprecedented public health impact of COVID-19 and Provincial and Federal guidance regarding public gatherings, shareholders and proxyholders are strongly encouraged NOT to attend the Meeting in person. The COVID-19 virus is causing unprecedented social and economic disruption and Manitou wants to ensure that no one is unnecessarily exposed to any risks. Furthermore, so that the Company can mitigate potential risks to the health and safety of shareholders, employees, and the community, there will be strict limitations on the number of persons permitted entry to the Meeting.

The Company urges all shareholders to vote by proxy in advance of the Meeting in accordance with the instructions set out in the proxy, and to listen to the Meeting through the live conference call and web presentation details provided below:

Date and Time: Wednesday, June 23, 2021, at 3:00 p.m. (Toronto time)

Dial-in Numbers: 647-723-3984 or 1-866-365-4406 from Canada or the US 7 Digit Access Code - 3616167

Please register for the Meeting at the following link: <https://cc.callinfo.com/r/1rnlcl8ksqbn3&eom>

Participants should dial in approximately 5 to 10 minutes prior to the scheduled start time. Shareholders who dial in to the Meeting through the call details above will not be able to vote on the matters put forth at the Meeting.

The Company is also pleased to announce that it has now received the first interpretations of the 300 line kilometer Alpha IP survey covering the western 10 kilometers strike length of the Baltimore deformation zone (BDZ"). The IP survey is behind schedule, but is now ~50% complete. The interpretation of the IP data is ongoing, but preliminary modelling has identified a number of targets along the limbs, and in the hinge of a major fold structure. The Company will continue to model and interpret the data and will provide a further press release discussing the initial gold targets in the near future.
