LONDON, June 24, 2021 - [Gabriel Resources Ltd.](#) (TSXV trading symbol GBU - "Gabriel" or the "Company") is pleased to announce that it has priced the repayment of the \$90,862,000 convertible unsecured notes ("Notes") currently in issue. The outstanding principal amount of the Notes and accrued interest is repayable by the Company on June 30, 2021 ("Maturity Date").

Under the terms of the Note indenture ("Indenture"), the Company has the option to repay all or a proportion of the principal amount of Notes outstanding at maturity by issuing Common Shares ("Common Share Repayment Right") to holders of the Notes ("Noteholders"). As disclosed in its announcement of May 27, 2021, Gabriel has exercised the Common Share Repayment Right by issuing the requisite notice under the Indenture to the Noteholders and the trustee, Computershare Trust Company of Canada.

Pursuant to the exercise of the Common Share Repayment Right, and upon surrender of the Notes, the Company will issue, in aggregate, approximately 313.6m Common Shares to Noteholders, such number of shares calculated on the basis of the 'Current Market Price' of \$0.28975, being the price equal to 95% of the volume weighted average trading price of a Common Share over a 20 trading day period to June 23, 2021 ("Note Repayment Price").

The Notes remain convertible up to the Maturity Date at the option of the Noteholders into Common Shares at a price of \$0.3105 per share ("Conversion Price"). If all of the outstanding Notes were converted prior to or at the Maturity Date by the Noteholders at the Conversion Price, an aggregate of 292.6m Common Shares would be required to be issued by the Company. As the Note Repayment Price is lower than the Conversion Price, 21m more Common Shares will be required to be issued to the Noteholders than would be the case on conversion by Noteholders.

The repayment of the Notes through exercise of the Common Share Repayment Right is subject to any conversion of the Notes by Noteholders up to the Maturity Date and otherwise subject to certain conditions, including, but not limited to, the approval of the TSX Venture Exchange.

Further Information

About Gabriel

Gabriel is a Canadian resource company listed on the TSX Venture Exchange. The Company's principal focus has been the exploration and development of the Roşia Montană gold and silver project in Romania. The Roşia Montană Project, one of the largest undeveloped gold deposits in Europe, is situated in the South Apuseni Mountains of Transylvania, Romania, an historic and prolific mining district that since pre-Roman times has been mined intermittently for over 2,000 years. The exploitation license for the Roşia Montană Project is held by Roşia Montană Gold Corporation S.A., a Romanian company in which Gabriel owns an 80.69% equity interest, with the 19.31% balance held by Minvest Roşia Montană S.A., a Romanian state-owned mining company.

Upon obtaining the License in June 1999, the Group focused substantially all of their management and financial resources on the exploration, feasibility and subsequent development of the Roşia Montană Project. Despite the Company's fulfilment of its legal obligations and its development of the Roşia Montană Project as a high-quality, sustainable and environmentally-responsible mining project, using best available techniques, Romania has blocked and prevented implementation of the Roşia Montană Project without due process and without compensation. Accordingly, the Company's current core focus is the ICSID Arbitration. For more information please visit the Company's website at www.gabrielresources.com.

- volatility of currency exchange rates; and
- the availability and continued participation in operational or other matters pertaining to the Group of certain key employees and consultants.
