

Orocobre Ltd.: Lithium pricing update and quarterly report date

09.07.2021 | [GlobeNewswire](#)

BRISBANE, July 09, 2021 - [Orocobre Ltd.](#) (ASX: ORE, TSX: ORL) ("Orocobre" or "the Company") advises that production for the June 2021 quarter was 3,300 tonnes of lithium carbonate. Approximately 66% of production was battery grade lithium carbonate which is a significant increase on the June 2020 quarter that was 21% battery grade lithium carbonate.

Sales of Olaroz lithium carbonate during the June 2021 quarter were 2,549 tonnes at US\$8,476/tonne FOB¹, with pricing up 45% on the March 2021 quarter. Lithium prices received by Olaroz are now up more than 170% in the last nine months.

Inventory has increased during the June quarter due to COVID-19 related transport delays and the requirement to hold additional safety stock in Japan to guarantee delivery into the Prime Planet Energy and Solutions (PPES) contract.

Full details of June quarter performance will be released in the production report on 22 July 2021 with a management briefing at 10.30am AEST (Sydney, Melbourne, Brisbane) via a webcast available at www.orocobre.com. Written questions may be submitted via the webcast.

An archive copy of the briefing and Q&A session will subsequently be made available on the Company website.
