

Triple Flag Reports Record Metal Sales in Q2 2021

13.07.2021 | [Business Wire](#)

[Triple Flag Precious Metals Corp.](#) ("Triple Flag") today announced record gold equivalent ounces ("GEOs") for the second quarter of 2021. All dollar references are in United States dollars.

"Our gold equivalent ounces sold in the second quarter were a new record for our business, increasing by 40% compared to the second quarter of 2020, while revenue increased by 48% over the same period," commented Shaun Usmar, Founder and CEO. "With the successful completion of our initial public offering ("IPO") during the quarter, which was the largest TSX-listed mining IPO since 2012 by size and market capitalization, and the largest precious metals IPO globally by market capitalization since 2008, Triple Flag is poised to continue its growth. Shortly after the quarter-end, we paid down the remaining balance of our revolving credit facility and are now debt-free. We are tremendously appreciative of the support shown by investors during our IPO, providing us with a high-quality shareholder register. As we commence this part of our journey as a public company, we will continue to work tirelessly to build shareholder value and establish Triple Flag as the premier quality growth name in the precious metals streaming and royalty sector."

Preliminary Q2 2021 Sales and Revenue

Triple Flag sold 22,537 GEOs in the second quarter of 2021, resulting in \$40.9 million in revenue and representing 77,481 GEOs over the last twelve months.

About Triple Flag

Triple Flag is a gold-focused streaming and royalty company offering bespoke financing solutions to the metals and mining industry. Our mission is to be a sought-after, long-term funding partner to mining companies throughout the commodity cycle. Since our inception in 2016, we have constructed a diversified portfolio of streams and royalties providing exposure primarily to gold and silver in the Americas and Australia. We have 75 assets, including 9 streams and 66 royalties. These investments are tied to mining assets at various stages of the mine life cycle, including 15 producing mines and 60 development and exploration stage projects.
