About NorthStar Sustainable Energy LLC (A Ross Harris Group Company):

NorthStar Sustainable Energy LLC is positioned to be a carbon neutral coal company, the first of its kind in North America. NorthStar will be a dual services facility on the NS and CSX rail roads, focusing on metallurgical coals, along with specialty products for its existing customer base. NorthStar has established several long-term relationships with users of the metallurgical coal and began shipping in June 2021. NorthStar located in Pike County, Kentucky which is in the "Opportunity Zone" making its position in the market unique. NorthStar with its "Socially Responsible Carbon" outlook has three new metallurgical mines coming online this summer. Metallurgical coal, also known as met coal, coking coal, or steelmaking coal, is a vital ingredient for making steel, iron alloy, carbon and other metals used in everything from buildings, tools, trains, planes, and automobiles, to cookware, cutlery, surgical tools and implants.

About Ross Harris Group ([WWW.ROSSHARRISGROUP.COM](http://WWW.ROSSHARRISGROUP.COM))

The Ross Harris Group is comprised of over 30 companies with common ownership and a common purpose - To optimize the value of its natural resource holdings while protecting the environment for future generations. Founded by the late Ross Harris over thirty years ago, the RH Group has followed Mr. Harris' vision of acquiring underappreciated assets and then having a well-defined plan and the patience to execute that plan to create value. His vision and creed permeate and still guide us. With its corporate offices located in Pikeville, Kentucky, the RH Group has holdings in Kentucky, Virginia and West Virginia. It has a diverse array of assets including: a unique metallurgical coal development opportunity, vast thermal coal reserves, over 160,000 acres of oil and gas holdings, thousands of acres of timber lands and significant real estate suitable for commercial, industrial and residential development. The RH Group has gone beyond the traditional utilization of its assets. To create value, it has delved into areas such as generating carbon credits to sell in the California Cap and Trade program; partnering with solar energy professionals to evaluate and develop sites for solar energy development and evaluating properties for the opportunity to develop and sell mitigation credits, to name a few.

About Firma Advanced Carbon Materials ([WWW.FIRMAHOLDINGSCORP.COM](http://WWW.FIRMAHOLDINGSCORP.COM))

Advanced Carbon Materials have excellent thermal stability and mechanical property such as tensile strength more than ordinary materials. Graphene, carbon fibers, carbon foams structural graphite, and nanotubes are majorly used in advanced carbon materials as engineering materials for infrastructure projects. Metallurgical coal, also known as met coal, coking coal, or steelmaking coal, is a vital ingredient for making steel, iron alloy, carbon and other metals used in everything from buildings, tools, trains, planes, and automobiles, to cookwares, cutlery, surgical tools and implants. Firma is focused on partnering with well-established companies, currently working on several projects, each working toward the goal of creating a sustainable future.
