27.07.2021 | [CNW](#)

TORONTO, July 27, 2021 - [Vox Royalty Corp.](#) (TSXV: VOX) ("Vox" or the "Company"), a high growth precious metals focused royalty company, is pleased to announce that it has realized record preliminary quarterly royalty revenue of C\$1,628,600 (US\$1,314,000)⁽¹⁾ for the three-month period ended June 30, 2021. During the quarter, the Company recognized inaugural royalty revenue from its Janet Ivy gold royalty, acquired on March 29, 2021, which is an uncapped A\$0.50 per tonne royalty.

Quarterly revenue benefitted from increased royalty-linked production by [Mineral Resources Ltd.](#) (ASX: MIN) at Koolyanobbing, increased production by [Karora Resources Inc.](#) (TSX: KRR) from the Hidden Secret deposit at Higginsville covered by the Dry Creek royalty, inaugural royalty revenues earned from the Janet Ivy royalty, and increased production by the operator of the Brauna royalty.

Vox has successfully grown quarterly revenue figures exponentially since Q3 2020, which is summarized in the below chart:

	Three months ended September 30, 2020	Three months ended December 31, 2020	Three months ended March 31, 2021	Three months ended June 30, 2021

Kyle Floyd, Chief Executive Officer stated: "This is the continuation of an exciting period in Vox's growth as revenue and profitability metrics start to reflect the true earnings power of the Vox royalty portfolio. We have consistently updated the market with operator updates concerning our royalty assets and noted that our portfolio continues to grow ahead of expectations. The coming quarters and years should continue to reflect a robust increase in revenues from both in production assets and development stage projects we expect to come online."

2021 Revised Outlook

On April 13, 2021, the Company announced that it expected 2021 annual royalty revenues to total C\$1,700,000 - C\$2,500,000. The Company is pleased to announce that it now expects 2021 royalty revenues to double to C\$4,000,000 - C\$5,000,000.

The Company's two-fold increase in 2021 revenue guidance is based on public forecasts and other disclosure by the third-party owners and operators of its assets or management's assessment thereof. The increase in guidance since the Company's last issued guidance is mainly attributable to: (i) higher royalty-linked production volumes at the Koolyanobbing iron ore operations across the Deception open pit and recently commissioned Altair open pit, (ii) first production from the Segilola gold mine anticipated in July 2021, and (iii) continued quarter-on-quarter record royalty-linked production from the Hidden Secret deposit at Higginsville covered by the Dry Creek royalty.

The revised 2021 outlook does not include the potential sale proceeds from two graphite royalties in the process of being sold, as announced on July 5, 2021.
