# Alexco Announces Second Quarter 2021 Results

11.08.2021 | CNW

(All amounts in CDN\$ unless otherwise indicated)

VANCOUVER, Aug. 11, 2021 - <u>Alexco Resource Corp.</u> (NYSE American: AXU) (TSX: AXU) ("Alexco" or the "Company") today reports financial results for the quarter ended June 30, 2021 ("Q2 2021"). The Company also provides an update on capital development projects, scale up of mining operations, and exploration activities at Keno Hill.

# Q2 2021 Highlights

- 22% Increase in Mineral Reserves at Keno Hill: On May 26, 2021, the Company announced the expansion of Mineral Reserves by 22% or 270,000 tonnes to 1.44 million tonnes, grading an average 804 grams per tonne ("g/t") silver ("Ag"), 3.84% zinc ("Zn"), 2.64% lead ("Pb"), 0.31 g/t gold ("Au"), or approximately 1,035 g/t Ag equivalent<sup>1</sup>. The updated reserve mine plan is projected to produce over 35.5 million ounces of Ag over the next 8 years.
- Mill Performance, Throughput and Recovery on Track: Since initial commissioning in December 2020, the mill has been operating on a modified schedule (primarily to match ore production from the Bellekeno mine) and saw throughput of 176 tonnes per operating day ("tpd") in Q2 2021 as ramp up continues towards 400 tpd. For the first six months of 2021 ("YTD"), mill throughput totaled 14,726 tonnes at 773 g/t Ag. Installation of cyclones, the addition of a new tailings filter press, installation of a new fine ore feeder, and construction of a new building around the crusher have all been completed as planned at the mill. For Q2 2021, Ag recoveries averaged 93%, with 94% of Ag reporting to the Pb concentrate.
- On Track to Reach Bermingham and Flame & Moth Ore in Second Half of 2021: Underground development rates have increased since the first quarter of 2021 ("Q1 2021"), and the Company has contracted additional underground miners and maintenance technicians to supplement internal staffing and resources and to increase advancement rates.
- Bellekeno: Ore production is expected to be complete in the third quarter of 2021 ("Q3 2021") after which equipment and operators will be redeployed to Bermingham and Flame and Moth.
  - Bermingham: Initial ore production anticipated in Q3 2021.
  - Flame & Moth: The main ramp has reached the first ore access level and advancement of this level to crosscutt the ore is underway, with initial ore production anticipated in the fourth quarter of 2021 ("Q4 2021").
- Bermingham Northeast Deep Zone Exploration Program Results Expected: To date, approximately 11,500 meters ("m") have been drilled using directional drill technology; a total of more than 50 intercepts are targeted on the mineralized vein zone, with initial drill results anticipated to be available in late August.

Key Performance Metrics

- 4. Total assets increased primarily due to increases in cash and cash equivalents and mineral properties, plant and equipment.
- 5. Total liabilities increased primarily due to increases in accounts payable and accrued liabilities and lease Outdookities d Strategy

Clynt Nauman, Chairman and CEO, commented, "During the second quarter, we made good progress at Keno Hill, increasing mine reserves by 22% and ramping up mill throughput by 65% over Q1 2021, while maintaining strong metallurgical performance, both from a recovery and payability perspective. We continue to be extremely focused on increasing our underground development rates, and we remain on track to reach Bermingham and Flame & Moth ore in the second half of 2021. We do caution investors however that the longer term continuation or increased COVID-19 related workplace restrictions, slower than forecasted development advance rates or recruitment of underground miners and maintenance technicians, may have the effect of extending our scale-up period. The directional drilling campaign at the Bermingham Northeast Deep zone has given us a significant amount of high-quality information and we are looking forward to sharing those initial results with the market in late August, once assay results are available."

## Conference Call for Q2 2021 Results

Alexco management will host an audio webcast conference call to discuss these results on Thursday, August 12, 2021 at 8:00 am PT (11:00 am ET). Details to join the conference call are as follows:

Dial toll free from Canada or the US: 1-800-319-4610

Dial from outside Canada or the US: 1-604-638-5340

Live audio webcast: http://services.choruscall.ca/links/alexco20210812.html

Participants should connect five to ten minutes before the call. The conference call will be recorded, and an archived audio webcast will be available at www.alexcoresource.com shortly after the call.

# **Qualified Persons**

The disclosure in this news release of scientific and technical information regarding exploration projects on Alexco's mineral properties has been reviewed and approved by Alan McOnie, FAusIMM, Vice President,

<sup>3.</sup> Net loss for Q2 2021 includes a non-cash fair value loss relating to the embedded derivative asset totaling Tosadia, bidi අවිට - \$11,579,000). Net income for YTD 2021 includes a nak කිනි fail ඇතිම gain relating කිනිම embedded derivative asset totaling \$2,808,000 (2020 - loss of \$3,482,000).

Exploration, while that regarding mine development and operations has been reviewed and approved by Neil Chambers, P.Eng., Chief Mine Engineer, both of whom are Qualified Persons as defined by National Instrument 43-101 - Standards of Disclosure for Mineral Projects.

## About Alexco

Alexco is a Canadian primary silver company that owns and operates the majority of the historic Keno Hill Silver District, in Canada's Yukon Territory, one of the highest-grade silver deposits in the world. Alexco is currently advancing Keno Hill to production and commenced concentrate production and shipments in Q1 2021. Keno Hill is expected to produce an average of approximately 4.4 million ounces of silver per year contained in high quality lead/silver and zinc concentrates. Keno Hill retains significant potential to grow and Alexco has a long history of expanding the operation's mineral resources through successful exploration.

## Forward-Looking Statements

Some statements ("forward-looking statements") in this news release contain forward-looking information plans related to Alexco's business and other matters that may occur in the future, made as of the date of this news release. Forward-looking statements are subject to a variety of known and unknown risks, uncertainties and other factors which could cause actual events or results to differ from those expressed or implied by the forward-looking statements. Such factors include, among others, risks related to risks and uncertainties relating to the COVID-19 pandemic including but not limited to business closures, travel restrictions. guarantines and a general reduction in consumer activity; actual results and timing of exploration and Geveropment, mining, environmental services and remediation and reclamation activities; future prices of silvery gold, Newman, 2 and make the covery favor of the cove WSKY of THE PROPERTY; First Nation rights and title; continued capitalization and commercial viability; global economic conditions; competition; and delays in obtaining governmental approvals or financing or in the completion of development activities. Forward-looking statements are based on certain assumptions that management believes are reasonable at the time they are made.
