

# World Copper's Shares Approved for Trading on the OTCQB(R) Venture Market

17.08.2021 | [Newsfile](#)

Vancouver, August 17, 2021 - [World Copper Ltd.](#) (TSXV: WCU) (OTCQB: WCUFF) ("World Copper" or the "Company") announces that the Company's common shares have been approved and admitted for trading on the OTCQB Venture Market under the symbol WCUFF commencing August 18<sup>th</sup>, 2021. The company's primary listing remains on the TSX Venture Exchange under the symbol WCU.

World Copper CEO, Nolan Peterson, stated, "Trading on OTCQB is a major milestone for the Company as World Copper presses forward to becoming an eminent copper company. The OTCQB listing will allow us to expand our audience and activate our shareholder base in the American market as we continue to advance our projects in Chile and Arizona. As World Copper continues to grow with the addition of our OTCQB listing, I look forward to discussing the Company's exciting story with our new base of shareholders located in the USA."

The OTCQB Venture Market is for entrepreneurial and development-stage United States and international companies. To be eligible, Canadian companies must be current in their home market reporting and undergo an annual verification and management certification process. These standards provide a strong baseline of transparency as well as the technology and regulation to improve the information and trading experience for investors.

## ABOUT WORLD COPPER LTD.

[World Copper Ltd.](#), headquartered in Vancouver, BC, is a Canadian resource company focused the exploration and development of its copper porphyry projects: Escalones and Cristal in Chile, and Zonia in Arizona. Two of these projects have estimated resources with significant soluble copper mineralization, and there are at least two other copper porphyry targets with exciting potential to expand the resource base. The Zonia project is being acquired as part of the previously announced merger transaction with [Cardero Resource Corp.](#) Please refer to news releases dated June 9<sup>th</sup>, 2021 and April 20<sup>th</sup>, 2021 for more details and for the current status of the transaction.

## About Escalones

The Escalones porphyry-skarn copper-gold project has estimated resources of 185 million tonnes of 0.33% copper (0.37% CuEq) Indicated and 254 million tonnes of 0.39% copper (0.43% CuEq) Inferred, based on nearly 25,000m of drill core from 53 holes. In addition, three significant hydrothermal alteration zones, each measuring between 2,000m and 3,000m in diameter, lie 8-10km to the north of the main discovery.

Mineral resources are not mineral reserves and do not have demonstrated economic viability as there is no certainty that all or any part of the resources will be converted into reserves. Inferred resources are that part of a mineral resource for which quantity and grade or quality are estimated on the basis of limited geological evidence and sampling. It is reasonably expected that the inferred resources could be upgraded to indicated resources with continued exploration.

## About Zonia

The Zonia project is in Yavapai County, Arizona, and consists of 261 mineral claims and additional surface rights, all totaling 4,279.55 acres. It is a near-surface, copper-oxide resource and a brownfields site having already been mined in the late 1960s and '70s. The Project is at the PEA level and has been significantly de-risked with over 50,000 metres of drilling completed to date and with substantial amounts of detailed

engineering completed. Further details can be found here.

The World Copper team has a unique skill in navigating the mining sector within Chile, with some members having worked in the country for more than 40 years and with discovery success.

On Behalf of the Board of Directors of

[World Copper Ltd.](#)

#### Cautionary Note Regarding Forward-Looking Statements

This news release contains forward-looking statements and forward-looking information (collectively, "forward-looking statements") within the meaning of applicable Canadian and U.S. securities legislation, including the United States Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact, included herein including, without limitation, the Company's expectation that it and Cardero will be able to complete the Proposed Transaction, including entering into a Definitive Agreement, the closing and amount of the Private Placement, that Zonia can be advanced utilizing low-cost open pit mining and heap leach, the results of the PEA, including, without limitation the NPV6%, IRR, estimated costs, average rate of production, the anticipated exploration program results from exploration activities and the anticipated business plans and timing of future activities of the Company, including the timing for the closing of the Proposed Transaction, are forward-looking statements. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Forward-looking statements are typically identified by words such as: "believes", "expects", "anticipates", "intends", "estimates", "plans", "may", "should", "would", "will", "potential", "scheduled" or variations of such words and phrases and similar expressions, which, by their nature, refer to future events or results that may, could, would, might or will occur or be taken or achieved. In making the forward-looking statements in this news release, the Company has applied several material assumptions, including without limitation, that it will be able to negotiate and enter into a Definitive Agreement, and that it will obtain TSXV acceptance and the required corporate approvals of the Proposed Transaction and the Consolidation, that

there will be investor interest in the Private Placement, market fundamentals will result in sustained copper and precious metals demand and prices, the receipt of any necessary permits, licenses and regulatory approvals in connection with the future development of the Company's projects in a timely manner, the availability of financing on suitable terms for the development, construction and continued operation of such projects and the ability to comply with environmental, health and safety laws.

Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to differ materially from any future results, performance or achievements expressed or implied by the forward-looking information. Such risks and other factors include, among others, requirements for additional capital, actual results of exploration activities, including on the Escalones Project and the Cristal Project, the reasonability of the economic assumptions at the basis of the results of the PEA for the Zonia Project, the estimation or realization of mineral reserves and mineral resources, future prices of copper, changes in general economic conditions, changes in the financial markets and in the demand and market price for commodities, lack of investor interest in the Private Placement, accidents, labour disputes and other risks of the mining industry, delays in obtaining governmental approvals (including acceptance of the Proposed Transaction, the Private Placement and the Consolidation by the TSXV), permits or financing or in the completion of development or construction activities, risks relating to epidemics or pandemics such as COVID-19, including the impact of COVID-19 on the Company's business, financial condition and results of operations, changes in laws, regulations and policies affecting mining operations, title disputes, the timing and possible outcome of any pending litigation, environmental issues and liabilities, as well as the risk factors described in the Company's annual and quarterly management's discussion and analysis and in other filings made by the Company with Canadian securities regulatory authorities under the Company's profile at [www.sedar.com](http://www.sedar.com).

Readers are cautioned not to place undue reliance on forward-looking statements. The Company undertakes no obligation to update any of the forward-looking statements in this news release or incorporated by reference herein, except as otherwise required by law.
