TORONTO, August 23, 2021 - [Trigon Metals Inc.](#) (TSX-V:TM) ("Trigon" or the "Company") announces the completion of the manufacture of long lead equipment items for the Kombat processing plant by Yantai Xinhai Industry & Trade Co., Ltd (formerly Xinhai (Yantai) Mining Engineering Co., Ltd) ("Xinhai").

As announced previously (see press release dated May 6, 2021), Trigon has procured various equipment items, including new flotation cells, from Xinhai. Completed items will be shipped from China to Namibia over the course of the next few weeks.

Other long lead orders from local Namibian and South African suppliers are also nearing completion, and various key plant components are expected to be delivered during August and September.

At the Kombat Mine, preparations are well advanced to receive and install the new equipment, and the project remains on track for commissioning of the plant by the end of the year.

Jed Richardson, President and CEO of Trigon, commented, "Our engineering team has made significant progress on the plant refurbishment to date and is ready to receive the new equipment. We have worked closely with Xinhai over the past few months, and we're excited to see everything coming together as planned, on time and on budget."
