

Avidian Gold to Attend Beaver Creek

08.09.2021 | [ACCESS Newswire](#)

TORONTO, September 8, 2021 - [Avidian Gold Corp.](#) ("Avidian" or the "Company") (TSXV:AVG)(OTCQB:AVGDF) is pleased to announce that management and directors will be in Beaver Creek, Colorado from September 8 to 10, 2021. Beaver Creek, Colorado is host to the Precious Metals Summit which attracts global investors, miners and top exploration companies.

Avidian is currently conducting resource expansion drilling at its district scale (125 sq. km) Golden Zone Project in south-central Alaska. When drilling concludes at Golden Zone the Company plans to mobilize the drill to its road-accessible Amanita Project located 5 km south of Kinross Gold's Fort Knox mine & mill to follow up on the near-surface high-grade oxide gold encountered in the 2020 core program and 2019 trenching program.

To meet the Avidian team please contact CEO Steve Roebuck via contact details below.

About Avidian Gold Corp.

Avidian brings a disciplined and veteran team of project managers together with a focus on advanced stage gold exploration projects in Alaska. Avidian's Golden Zone project hosts a NI 43- 101 indicated gold resource of 267,400 ounces (4,187,000 tonnes at 1.99 g/t Au) plus an inferred gold resource of 35,900 ounces (1,353,000 tonnes at 0.83 g/t Au)*. Additional projects include the Amanita and the Amanita NE gold properties which are both adjacent to Kinross Gold's Fort Knox gold mine in Alaska, and the Jungo gold-copper property in Nevada. *Technical Report on the Golden Zone Property, August 17, 2017, L. McGarry P.Geol & I. Trinder P.Geol, A.C.A Howe International Ltd.

Avidian's majority controlled High Tide Resources is a private corporation that is focused on, and committed to, the development of advanced-stage mineral projects in Canada using industry best practices combined with a strong social license from local communities. High Tide is earning a 100% interest the Labrador West Iron project located adjacent to IOC/Rio Tinto's 23 mtpy Carol Lake Mine in Labrador City, Labrador and owns a 100% interest in the Lac Pegma Copper-Nickel-Cobalt deposit located 50 km southeast of Fermont, Quebec. High Tide is majority controlled by Avidian.

Forward-looking information

This News Release includes certain "forward-looking statements" which are not comprised of historical facts including statements regarding the use of proceeds. Forward-looking statements include estimates and statements that describe the Company's future plans, objectives or goals, including words to the effect that the Company or management expects a stated condition or result to occur. Forward-looking statements may be identified by such terms as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan". Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Although these statements are

based on information currently available to the Company, the Company provides no assurance that actual results will meet management's expectations. Risks, uncertainties and other factors involved with forward-looking information could cause actual events, results, performance, prospects and opportunities to differ materially from those expressed or implied by such forward-looking information. Forward looking information in this news release includes, but is not limited to, the Company's objectives, goals or future plans, statements, exploration results, potential mineralization, the estimation of mineral resources, exploration and mine development plans, timing of the commencement of operations and estimates of market conditions. Factors that could cause actual results to differ materially from such forward-looking information include, but are not limited to: the ability to anticipate and counteract the effects of COVID-19 pandemic on the business of the Company, including without limitation the effects of COVID-19 on the capital markets, commodity prices supply chain disruptions, restrictions on labour and workplace attendance and local and international travel, failure to receive requisite approvals in respect of the foregoing, failure to identify mineral resources, failure to convert estimated mineral resources to reserves, the inability to complete a feasibility study which recommends a production decision, the preliminary nature of metallurgical test results, delays in obtaining or failures to obtain required governmental, environmental or other project approvals, political risks, inability to fulfill the duty to accommodate First Nations and other indigenous peoples, uncertainties relating to the availability and costs of financing needed in the future, changes in equity markets, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects, capital and operating costs varying significantly from estimates and the other risks involved in the mineral exploration and development industry, and those risks set out in the Company's public documents filed on SEDAR. Although the Company believes that the assumptions and factors used in preparing the forward-looking information in this news release are reasonable, undue reliance should not be placed on such information, which only applies as of the date of this news release, and no assurance can be given that such events will occur in the disclosed time frames or at all. The Company disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, other than as required by law.
