

KWG Announces Closing of First Tranche of Its Convertible Debenture Private Placement and Results of Shareholders' Meeting

29.09.2021 | [Newsfile](#)

Toronto, September 29, 2021 - [KWG Resources Inc.](#) (CSE: KWG) (CSE: KWG.A) (FSE: KW6) ("KWG" or the "Company") ("KWG") is pleased to announce the closing today of the first tranche of its previously announced private placement (the "Private Placement") of up to \$5,000,000 of convertible debentures (see news release dated August 23, 2021). This first tranche was comprised of an aggregate of \$3,410,657 of debentures. The Company anticipates completing a second tranche of the Private Placement within the next several days.

The debentures are convertible into units (each a "Unit") with a deemed value of \$15 per Unit (i) at the holder's option at any time or (ii) at the option of KWG after the first anniversary date of September 29, 2022. The debentures mature on June 30, 2023 and bear interest at 12% per annum, accruing daily, compounding annually and payable concurrently with the payment of principal at the earliest of maturity, redemption or conversion, such payment to be made either (i) at the Company's option on 30 days' notice, by payment in cash (other than in the event of a conversion) or (ii) by the issuance of Units at a deemed value of \$15.00 per Unit. Each Unit will be comprised of two KWG.A multiple-voting shares (as such KWG.A shares are presently constituted; or six KWG.A multiple-voting shares if the proposed subdivision of KWG.A multiple-voting shares approved at last week's shareholder meeting is implemented) and one multiple-voting share purchase warrant enabling its holder to acquire one further KWG.A multiple-voting share (as such KWG.A shares are presently constituted; or to acquire three KWG.A multiple-voting shares if the proposed subdivision of KWG.A multiple-voting shares approved at last week's shareholder meeting is implemented) from treasury upon payment of \$9.60 (for each such KWG.A share as presently constituted; or \$3.20 for each KWG.A multiple voting share if the proposed subdivision of KWG.A multiple-voting shares approved at last week's shareholder meeting is implemented) exercisable at any time on or before December 15, 2023.

The proceeds received by the Corporation from the sale of the debentures will be used for the costs and fees associated with the Private Placement, for general corporate overhead expenses including repaying current debts and liabilities and for payment of exploration and other operating expenses. The working capital deficiency and balance sheet of the Corporation will be improved, which should facilitate future financings or other transactions.

All of the securities to be issued pursuant to this tranche of the Private Placement are subject to a four (4) month hold period.

At the meeting of the Company's shareholders concluded on September 21, 2021, Fiona Blondin was elected a director of the Corporation and Douglas Flett, Bruce Reid, Donald Sheldon and Frank Smeenck were re-elected. Special resolutions to amend the Company's articles were also passed by the required majorities so that the Company may now create Preferred Shares and Special Shares as subsequently authorized by the directors.

About KWG:

KWG is the Operator of the Black Horse Joint Venture after acquiring a vested 50% interest through [Bold Ventures Inc.](#) which is carried for 10% (20% of KWG's equity in the JV) by KWG funding all exploration expenditures. KWG also owns 100% of CCC which staked mining claims between Aroland, Ontario and the Ring of Fire. CCC has conducted a surveying and soil testing program to assess the prospects for the engineering and construction of a railroad along that route between the Ring of Fire and Aroland, Ontario. Currently, CCC has engaged Cormorant Utilities and Rail-Veyor Technologies for completion of Engineering Proposals for the construction of a utility corridor within the route. KWG has also acquired intellectual property interests, including a method for the direct reduction of chromite to metalized iron and chrome using

natural gas. KWG subsidiary Muketi Metallurgical LP has acquired two chromite-refining patents in Canada and one in the USA and in South Africa and is prosecuting an application in Turkey.
