We strongly believe that we now have the right team in place to advance our value focused growth initiatives. Our plan over the next year is to increase our drilling efforts to further expand gold resources at our Tonopah gold project in Nevada while also focusing on completing the technical studies required to advance the project towards feasibility study and development permitting. We have a number of programs underway including starting a new resource estimate, metallurgical and baseline environmental study work, and we are still waiting on the completion of additional drill chip assays. The Company is also continuing to review accretive growth opportunities as they are presented," states James Hesketh, President and CEO.
