<sup>(1)</sup>The revenue and tonnes presented are sales as recognized in the month and do not reflect current market conditions due to the delays between pricing and revenue recognition.

<sup>(2)</sup>Tonnes = finished product tonnes

Mosaic reiterates its expectation for fourth quarter Phosphates finished product sales volumes to be in the range of 1.8 to 1.9 million tonnes. Phosphates revenue in November was positively impacted by low-margin intercompany sulfur sales. Excluding these sales, our previous guidance of fourth quarter average sales prices rising \$55 to \$65 per tonne over the third quarter remains unchanged.

In Potash, Mosaic continues to expect fourth quarter sales volumes of 2.0 to 2.1 million tonnes. The sequential potash price increase in the fourth quarter over third quarter average realized prices is expected to be at the low end of our guidance range of \$110-\$130 per tonne. Port congestion in Brazil has shifted expected recognition of higher priced sales tonnes to the first quarter of 2022.
