

G.E.T.T. Gold Inc. welcomes Mr. Mark van Schaik as Technical Director

21.12.2021 | [The Newswire](#)

Brossard, Dec. 21, 2021 - G.E.T.T Gold Inc. ("G.E.T.T Gold") (TSXV:GETT), (OTC:RCCMF) G.E.T.T Gold is extremely pleased to announce the nomination of Mr. Mark van Schaik as Technical Director.

Mark will assume a leading role in the commercialisation, implementation, strategic planning and positioning of the company's exclusive and patented thermal fragmentation mining method within the mining sector. 'Mark is probably the most experienced, knowledgeable and qualified person with regards to the technology and I am excited to have him join our team.' stated Fabien Miller, G.E.T.T. Gold's President and CEO.

Mark was trained and qualified in South Africa with a Nation Higher Diploma in Mechanical Engineering in 1992 and has built a career spanning almost 30 years in the Engineering and Underground Hard Rock Mining Industries. Mark spent time working for some of the best-known OEM suppliers like Atlas Copco and Sandvik Mining, and then ultimately founded and managed the maXem group of companies. maXem specialised in long-hole drilling equipment design, manufacture and support, also, distributor representation for a number of international OEM's such as Nippon Dragon Resources, CMAC, Wassara, and Montabert, and also providing full contract mining solutions. One highlight of Mark's career was establishing and supporting the Thermal Mining Method in South Africa and hands on operation of this method for a period of about 2 years. During this time, extensive experience was obtained that allowed for equipment and operating processes to be dramatically improved. Mark's passion is for developing and implementing technical innovations into complete business solutions and hopes to be able to use his experience to compliment and assist G.E.T.T Gold in taking their business to new achievements.

About G.E.T.T Gold

G.E.T.T Gold is active in the exploration and the development of gold resources in Quebec. G.E.T.T Gold also has an exclusive license for the Thermal Fragmentation mining method.

The company's growth strategy is based on:

• The development of its gold deposit with the objective of producing revenue from its operations;

• Increasing the value of its mining asset by prioritizing its exploration targets; and

• The commercialization and deployment of its thermal fragmentation technology.
