

# Beauce Gold Fields Private Placement Clarification

22.12.2021 | [Newsfile](#)

Montreal, December 21, 2021 - Beauce Gold Fields (TSXV: BGF) (Champs D'Or en Beauce), ("BGF"): clarifies the provisions contained in today's press release. In the press release it was stated, "The Company is pleased to announce that it is closing a non-brokered private placement of 3,120,000 Flow-Through units at \$0.14 per unit for gross proceeds of \$436,800 and 833,334 units at \$0.12 per unit for gross proceeds of \$100,000.08. The number of 833,334 units at \$0.12 per unit for gross proceeds of \$100,000.08 is incorrect. Therefore the correct statement should read, "The Company is pleased to announce that it is closing a non-brokered private placement of 3,120,000 Flow-Through units at \$0.14 per unit for gross proceeds of \$436,800 and 1,253,334 units at \$0.12 per unit for gross proceeds of \$150,400.08."

The Company would also like to clarify the paragraph; "In connection with the placement, the company will pay a cash finder's fee of \$35,000.00 to GloRes Securities Inc. of Mississauga, Ontario. The company will also issue 195,833 warrants to GloRes Securities Inc. that will give GloRes Securities Inc. the right to purchase one common share of the company at \$0.18 for 36 months following the closing of the placement, which will have a mandatory four (4) month and one (1) day holding period from the date of closing of the placement." The correct statement should read, "In connection with the placement, the company will pay a cash finder's fee of \$35,000.00 to GloRes Securities Inc. of Mississauga, Ontario and a \$3,528.00 finders fee to StephenAvenue Securities Inc. Toronto Ontario The company will also issue 195,833 warrants to GloRes Securities Inc. and 29,400 warrants to StephenAvenue Securities Inc. that will give them the right to purchase one common share of the company at \$0.18 for 36 months following the closing of the placement, which will have a mandatory four (4) month and one (1) day holding period from the date of closing of the placement."

The rest of the press release reads as is, no further clarifications required.

## About Beauce Gold Fields

Beauce Gold Fields is a gold exploration company focused on placer to hard rock exploration in the Beauce region of Southern Quebec. The Company's flagship property is the St-Simon-les-Mines Gold project site of Canada's first gold rush that pre-dates the Yukon Klondike. The Beauce region hosted some of the largest historical placer gold mines in Eastern North America that were active from 1860s to the 1960s It produced some of the largest gold nuggets in Canadian mining history (50oz to 71oz). The intent of Beauce Gold Fields is to trace the placer gold workings back to the bedrock source and uncover economic bedrock gold mineralization.

Comprising 152 contiguous claims and 7 real estate lots, the project area contains a six-kilometer long placer gold channel consisting of unconsolidated gold-bearing auriferous units of a lower saprolite and an upper brown diamictite.

The Company has identified a major Fault Line in bedrock that coincides with geophysical findings of an interpreted fault structure across the property, referred to herein as the AMT Shear. Evidence suggests the erosion of the AMT Fault or related splay fractures as a probable source of the historical placer gold channel, and has conducted bedrock sampling and geophysics outside the expression of the placer gold channel. This is the target of the current drill program.
