Payment of each dividend amount will be made on each payment date in U.S. dollars, which may in some cases be converted into local currency at the official foreign exchange rate on the date of each payment. In general, under the Colombian Tax Code dividends and distributions out of profits taxed at the corporate level to non-resident shareholders are subject to a 10% withholding tax. However, the 10% withholding tax is reduced to 5% under the Tax Treaty between Colombia and Canada if the shareholder is a company with a participation larger than 10% in the Colombian company distributing the dividend. The reduced tax rate is only applicable if the beneficial owner of the dividend is a Canadian resident company. If the beneficial owner is an individual, no reduced tax rate will apply. The withholding tax must be withheld from the gross distribution and paid to the Colombian tax authorities. Notwithstanding the above, this withholding is not applicable if the profits taxed at the corporate level out of which the dividends are paid were generated before fiscal year 2017 according to article 246-1 of the Colombian Tax Code.

The approved dividend is in line with the Company's dividend policy, which is to pay in dividends at least 15% of the net income of the prior fiscal year, provided that this allows, in good faith, to maximize the long-term value of the Company.
