

Panoro Minerals Announces Receipt of Early Deposit Payment from Wheaton Precious Metals for the Cotabambas Project, Peru

04.04.2022 | [CNW](#)

VANCOUVER, April 4, 2022 - [Panoro Minerals Ltd.](#) (TSXV: PML) (Lima: PML) (Frankfurt: PZM) (OTCQB: POROF) and wholly-owned subsidiary, Panoro Trading (Cayman) Ltd. ("Panoro" or the "Company") are pleased to announce that the Company has received the fourteenth Early Deposit payment of US\$750,000 as part of the Precious Metals Purchase Agreement (the "Cotabambas Early Deposit Agreement") with Wheaton Precious Metals International Ltd. ("WPMI"), a wholly owned subsidiary of [Wheaton Precious Metals Corp.](#) (TSX: WPM) (NYSE: WPM), in respect of the Cotabambas project located in Peru.

The principal terms of the Cotabambas Early Deposit Agreement are as described in the Company's press release on November 16, 2016, whereby WPMI will pay Panoro upfront cash payments totalling US\$140 million for 25% of the payable gold production and 100% of the payable silver production from the Company's Cotabambas Project in Peru. In addition, WPMI will make periodic cash payments to Panoro of the lesser of the market price and US\$450 per payable ounce of gold and US\$5.90 per payable ounce of silver delivered to WPMI over the life of the Cotabambas Project.

Panoro is entitled to receive US\$14 million spread over a period of up to 9 years as an early deposit with payments to be used to fund corporate expenses related to the Cotabambas Project. The balance of the US\$126 million, should WPMI elect to participate in the Cotabambas Early Deposit Agreement, is payable in instalments during construction of the Cotabambas Project.

The total advanced to date is US\$12.25 million from WPMI, including the accelerated tranche of US\$2.0 million received in December 2016.

Together with the receipt of this payment from WPMI, Panoro has received a total of CA\$13.9 million of funding since December 2021. The funding has been sourced from several strategic transactions including:

- Antilla Project sale, first scheduled payment (CA\$10.0 million);
- Kusiorcco Project sale, final scheduled payment (CA\$1.9 million);
- Regional Exploration Cooperation Agreements (CA\$1.1 million); and
- The WPMI Early Advance Payment #14 above (CA\$0.9 million).

Panoro is pleased to demonstrate to investors the Company's ability to finance the Cotabambas Project while avoiding capital dilution. The Company estimates additional \$CA 12.4 million of funding proceeds for 2022 and 2023.

The proceeds will be used to advance the Cotabambas Project pre-feasibility study ("PFS"). The infill and step out drilling to support the PFS is scheduled to commence mobilization shortly. Panoro is also evaluating independent, internationally recognized consulting engineering firms to commence the technical studies to support the Cotabambas PFS.

Luquman Shaheen, President & CEO, stated, "We are very happy with the partnership Panoro has formed with WPMI on the Cotabambas Project. The Cotabambas Early Deposit Agreement with WPMI has provided capital to advance Cotabambas while at the same time demonstrating the strength of the project. Panoro's relationship with WPMI, together with Panoro's strategic shareholders, Hudbay Minerals (Canada) and Antofagasta Minerals (Chile), provides strategic options to finance the future development of Cotabambas. Panoro is focused on executing on the PFS."

About Panoro

Panoro is a uniquely positioned Peru-focused copper development company. The Company is advancing its flagship Copper-Gold-Silver Project located in the strategically important area of southern Peru.

The Company's objective is to complete a Prefeasibility study in 2023 with work programs commencing in Q1 2022.

At the Cotabambas Project, the Company will first focus on delineating resource growth potential and optimizing metallurgical recoveries. These objectives are expected to further enhance the project economics as part of the Prefeasibility studies in 2022 and 2023. Exploration and step-out drilling from 2017, 2018 and 2019 have already identified the potential for both copper and sulphide resource growth.

Summary of Cotabambas Project Resources

Project	Resource	Million	Cu (%)	Au (g/t)	Ag (g/t)	Mo (%)	CuEq
	Classification	Tonnes					%
Cotabambas ¹ Cu/Au/Ag	Indicated	117.1	0.42	0.23	2.74	0.001	0.59
	Inferred	605.3	0.31	0.17	2.33	0.002	0.44
	@ 0.20% CuEq cutoff, effective October 2013, Tetratech						
1. Cotabambas Project, Apurimac, Peru, NI 43-101 Technical Report on Updated Preliminary Economic Assessment, amec foster wheeler and Moose Mountain Technical Services, 22 September 2015							

A PEA has been completed for the Cotabambas Project, the key results are summarized below:

Summary of Cotabambas Project PEA Results

Key Project Parameters			Cotabambas Cu/Au/Ag Project1
Process Feed, life of mine			million tonnes
			483.1
Process Feed, daily			tonnes
			80,000
Strip Ratio, life of mine			1.25 : 1
Before Tax ¹	NPV _{7.5%}	million US\$	1,053
	IRR	%	20.4
	Payback	years	3.2
After Tax ¹	NPV _{7.5%}	million US\$	684
	IRR	%	16.7
	Payback	years	3.6
Annual Average Payable Metals	Cu	thousand tonnes	70.5
	Au	thousand ounces	95.1
	Ag	thousand ounces	1,018.4
	Mo	thousand tonnes	-
Initial Capital Cost		million US\$	1,530
1. Project economics estimated at commodity prices of; Cu = US\$ 3.00/lb, Au = US\$ 1,250/oz, Ag = US\$ 18.50/oz, Mo = US\$ 12/lb			

PEAs are considered preliminary in nature and include Inferred Mineral Resources that are considered too speculative to have the economic considerations applied that would enable classification as Mineral Reserves. There is no certainty that the conclusions within the PEAs will be realized. Mineral Resources are not Mineral Reserves and do not have demonstrated economic viability.

Luis Vela, a Qualified Person under National Instrument 43-101, has reviewed and approved the scientific

and technical information in this press release.

President & CEO

CAUTION REGARDING FORWARD LOOKING STATEMENTS:

Information and statements contained in this news release that are not historical facts are "forward-looking information" within the meaning of applicable Canadian securities legislation and involve risks and uncertainties.

Examples of forward-looking information and statements contained in this news release include information and statements with respect to:

- Panoro delineating growth potential at the Cotabambas Project, while optimizing project economics;
- mineral resource estimates and assumptions; and
- the PEAs, including, but not limited to, base case parameters and assumptions, forecasts of net present value, internal rate of return and payback.

Various assumptions or factors are typically applied in drawing conclusions or making the forecasts or projections set out in forward-looking information. In some instances, material assumptions and factors are presented or discussed in this news release in connection with the statements or disclosure containing the forward-looking information and statements. You are cautioned that the following list of material factors and assumptions is not exhaustive. The factors and assumptions include, but are not limited to, assumptions concerning: metal prices and by-product credits; cut-off grades; short and long term power prices; processing recovery rates; mine plans and production scheduling; process and infrastructure design and implementation; accuracy of the estimation of operating and capital costs; applicable tax and royalty rates; open-pit design; accuracy of mineral reserve and resource estimates and reserve and resource modeling; reliability of sampling and assay data; representativeness of mineralization; accuracy of metallurgical test work; and amenability of upgrading and blending mineralization.

Forward-looking statements are subject to a variety of known and unknown risks, uncertainties and other factors which could cause actual events or results to differ materially from those expressed or implied by the forward-looking statements, including, without limitation:

- risks relating to metal price fluctuations
- risks relating to estimates of mineral resources, production, capital and operating costs, decommissioning or reclamation expenses, proving to be inaccurate
- the inherent operational risks associated with mining and mineral exploration, development, mine construction and activities, many of which are beyond Panoro's control
- risks relating to Panoro's or its partners' ability to enforce legal rights under permits or licenses or risk that Panoro's or its partners' projects will become subject to litigation or arbitration that has an adverse outcome
- risks relating to Panoro's or its partners' projects being in Peru, including political, economic and regulatory instability
- risks relating to the uncertainty of applications to obtain, extend or renew licenses and permits
- risks relating to potential challenges to Panoro's or its partners' right to explore or develop projects
- risks relating to mineral resource estimates being based on interpretations and assumptions which may result in differences between estimates and actual production under actual circumstances
- risks relating to Panoro's or its partners' operations being subject to environmental and remediation requirements which may increase the cost of doing business and restrict operations
- risks relating to being adversely affected by environmental, safety and regulatory risks, including increased regulatory requirements or delays and changes of law
- risks relating to inadequate insurance or inability to obtain insurance
- risks relating to the fact that Panoro's and its partners' properties are not yet in commercial production;
- risks relating to fluctuations in foreign currency exchange rates, interest rates and tax rates
- risks relating to Panoro's ability to raise funding to continue its exploration, development, and mining activities; and
- counterparty risk under Panoro's agreements.

This list is not exhaustive of the factors that may affect the forward-looking information and statements contained in this news release. Should one or more of these risks and uncertainties materialize, or should

underlying assumptions prove incorrect, actual results may vary materially from those described in the forward-looking information. The forward-looking information contained in this news release is based on beliefs, expectations, and opinions as of the date of this news release. For the reasons set forth above, readers are cautioned not to place undue reliance on forward-looking information. Panoro does not undertake to update any forward-looking information and statements included herein, except in accordance with applicable securities laws.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
