

# Avanti Energy Ceo Chris Bakker To Be Featured Today On Bloomberg Radio

18.04.2022 | [CNW](#)

CALGARY, April 18, 2022 - [Avanti Energy Inc.](#) (TSXV: AVN) (OTC: ARGYF) ("Avanti" or the "Company") is pleased to announce that Chris Bakker, Chief Executive Officer of Avanti, will be a guest today, April 18<sup>th</sup>, on Bloomberg Radio at approximately 11:45 a.m. EST with Paul T. Sweeney and Matt Miller. Mr. Bakker will be discussing Avanti's major helium discovery in Montana, which the Company believes has the potential to become one of, if not the largest new helium pools in North America, as well as helium's uses in industries of critical national importance such as semiconductor manufacturing, fiber optics, and rockets. Bloomberg Markets AM Radio is on weekdays from 10am-12pm.

Paul Sweeney and Matt Miller focus on market coverage as Wall Street begins its day, with analysis from Bloomberg Opinion writers, Bloomberg Intelligence analysts, and influential newsmakers.

To listen to the interview please go to: <https://www.bloombergradio.com/shows/bloomberg-markets-am/>

Avanti Energy is a helium exploration and development company pursuing new opportunities in extracting untapped helium deposits across western Canada and the United States to help fill the void in supply left from the depleted Federal National Helium Reserve in Amarillo, Texas, the world's single largest source of helium for the past 70 years. Furthermore, the way demand is going, the nature of helium as a finite resource, geopolitical risks of threats to supply and potential supply outages, helium is going to be highly sought after. It is more important than ever to secure North American supplies of helium for materials that are critical to everyday living as well as national defense.

## About Avanti Energy

Avanti Energy is focused on the exploration, development, and production of helium across western Canada and the United States. Avanti's professional oil and gas exploration and production team is actively targeting untapped potential helium reserves to help meet the increasing global demand for an irreplaceable and scarce element critical to advanced technology, medical and space exploration industries. ## Forward-Looking Statements

The information set forth in this news release contains forward-looking statements that are based on assumptions as of the date of this news release. These statements reflect management's current estimates, beliefs, intentions and expectations. They are not guarantees of future performance. The Company cautions that all forward-looking statements are inherently uncertain and that actual performance may be affected by a number of material factors, many of which are beyond the Company's control. Such factors include, among other things: risks and uncertainties relating to the Company's limited operating history and the need to comply with environmental and governmental regulations. Accordingly, actual and future events, conditions and results may differ materially from the estimates, beliefs, intentions and expectations expressed or implied in the forward-looking information. Except as required under applicable securities legislation, the Company undertakes no obligation to publicly update or revise forward-looking information.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the Exchange) accepts responsibility for the adequacy or accuracy of this release.
