

Franklin Mining Inc. to Begin Raising Funds for Lithium Projects

02.05.2022 | [GlobeNewswire](#)

Carson City, May 02, 2022 - [Franklin Mining](#) CEO William Petty (OTC Pink: FMNJ) has been waiting more than a year to receive full approval from the Securities and Exchange Commission ("SEC") on the filing of Form 1-A. This allows Franklin Mining to raise up to ten million dollars of funding. Last week, the company received the first sum of money to begin the development phase of mining lithium in Catamarca, Argentina.

Vice President of Operations in South America, Fernando Freudenthal, and Richard Song spent the month of April visiting the proposed mining area in what is known as the Lithium Triangle. This area is where Franklin Mining plans to begin phase one of development, encompassing more than 1600 hectares of land.

"Now that we have full approval by the SEC, as well as a solid team of geologists and lithium specialists, we are excited to begin planning for phase one of development," announced Mr. Petty. "We are also pleased to welcome Richard Song as Vice President of Marketing in Asia. Mr. Song will be working to market our product to lithium buyers in Asia."

Safe Harbor Act: This release may contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and such forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. "Forward-looking statements" describe future expectations, plans, results, or strategies and are generally preceded by words such as "may," "future," "plan" or "planned," "will" or "should," "expected," "anticipates," "draft," "eventually" or "projected." You are cautioned that such statements are subject to a multitude of risks and uncertainties that could cause future circumstances, events, or results to differ materially from those projected in the forward-looking statements, including the risks that actual results may differ materially from those projected in the forward-looking statements as a result of various factors, and other risks identified in a company's annual report.
