About G2 Goldfields Inc.

The G2 Goldfields team is comprised of professionals who have been involved in the discovery of more than 7 million ounces of gold in Guyana and the financing and development of Guyana's largest gold mine (RPA, 43-101, Technical Report on the Aurora Gold Mine, March 31, 2020). The Oko Main Zone discovery is the initial fruit of the application of this extensive in-country experience. Ongoing exploration within the 17km long Aremu – Oko trend has generated multiple drill targets, similar in geological setting and scale to Oko Main. The Aremu – Oko district has been a prolific alluvial goldfield since the rush of the 1870's. Modern exploration by the G2 Goldfields team has begun and continues to reveal the exceptional potential of this district.
