ACME Lithium to Present at 121 Mining Investment New York June 6th and 7th

02.06.2022 | Newsfile

Vancouver, June 2, 2022 - ACME Lithium Inc. (CSE: ACME) (OTCQB: ACLHF) (the "Company", or "ACME") is pleased to announce that President and CEO Steve Hanson will be meeting and presenting to investors at 121 Mining Investment New York. https://www.weare121.com/121mininginvestment-new-york/

The 121 Mining Investment New York Conference takes place on June 6th and 7th and attracts US and international investors for two days of investment-led panel sessions and CEO presentations.

With the rapid demand for securing a domestic supply of lithium, Nevada is at the forefront of mining in the US and remains one of the world's most attractive jurisdictions for mining investment.

ACME's CEO Steve Hanson will be presenting an overview of ACME's two Nevada projects including the upcoming drill campaign at Clayton Valley, Nevada, as well as information on ACME's Manitoba projects.

About ACME Lithium Inc.

Led by an experienced team, ACME Lithium is a mineral exploration Company focused on acquiring, exploring and developing battery metal projects in partnership with leading technology and commodity companies. ACME has acquired or is under option to acquire a 100-per-cent interest in projects located in Clayton Valley and Fish Lake Valley, Esmeralda County Nevada, and at Cat-Euclid and Shatford Lakes in southeastern Manitoba.

On behalf of the Board of Directors

Steve Hanson
Chief Executive Officer, President and Director

 This news release may contain forward-looking information within the meaning of applicable securities laws ("forward-looking statements"). Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects," "plans," "anticipates," "believes," "intends," "estimates," "projects," "potential" and similar expressions, or that events or conditions "will," "would," "may," "could" or "should" occur and in this news release include but are not limited to the attributes of, timing for and expected benefits to be derived from the drilling program to be carried out on the FLV property. Information inferred from the interpretation of drilling and other sampling results may also be deemed to be forward-looking statements, as it constitutes a prediction of what might be found to be present when and if a project is actually developed. These forward-looking statements are subject to a variety of risks and uncertainties which could cause actual events or results to differ materially from those reflected in the forward-looking statements, including, without limitation: risks related to fluctuations in metal prices; uncertainties related to raising sufficient financing to fund the planned work in a timely manner and on acceptable terms; changes in planned work resulting from weather, logistical, technical or other factors; the possibility that results of work will not fulfill expectations and realize the perceived potential of the Company's properties; risk of accidents, equipment breakdowns and labour disputes or other unanticipated difficulties or interruptions; the possibility of cost overruns or unanticipated expenses in the work program; the risk of environmental contamination or damage resulting from the Company's operations and other risks and uncertainties. Any forward-looking statement speaks only as of the date it is made and, except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any forward-looking statement, whether as a result of new information, future events or results or otherwise.
