

California Resources Corporation Announces Amendments to Consent Solicitation

15.06.2022 | [Business Wire](#)

[California Resources Corp.](#) (NYSE: CRC) ("CRC" or the "Company") today announced amendments to and extension of its solicitation of consents (the "Consent Solicitation") from the holders of its outstanding 7.125% Senior Notes due 2026 (CUSIP Nos. 13057QAH0, 13057QAJ6 and U1303AAE6) (the "Notes") to the proposed amendment to the indenture governing the Notes (the "Proposed Amendment") described in the Consent Solicitation Statement dated June 6, 2022, as amended by the Company's press release dated June 13, 2022 and as further amended by a Supplement dated June 15, 2022 (as amended, the "Statement"). The Consent Solicitation is being made in accordance with the terms and subject to the conditions stated in the Statement.

The expiration time for the Consent Solicitation is being further extended to 5:00 p.m., New York City time, on June 17, 2022 (the "Expiration Time"), unless further extended or earlier terminated by the Company. The record date (the "Record Date") for determining holders of the Notes entitled to give consents and receive the Consent Fee (as described below) remains 5:00 p.m., New York City time, on June 3, 2022.

The Company has increased the cash payment (the "Consent Fee") to be paid if the Company receives the consents required to approve the Proposed Amendment and the other conditions to the Consent Solicitation are satisfied or waived. The aggregate Consent Fee will be \$9,000,000, to be shared by all consenting holders who validly deliver consents to the Proposed Amendment before the Expiration Time. Specifically, the Consent Fee will be an amount, per \$1,000 principal amount of Notes for which a holder has validly delivered (on or prior to the Expiration Time) its consent, equal to the product of \$15.00 multiplied by a fraction, the numerator of which is the aggregate principal amount of Notes outstanding at the Record Date for the Consent Solicitation and the denominator of which is the aggregate principal amount of Notes for which the holders have validly delivered consents prior to the Expiration Time. As a result, the Consent Fee for the Notes will range from \$15.00 per \$1,000 (if all holders consent) to approximately \$30.00 per \$1,000 (if holders of only a majority of the aggregate principal amount of the Notes consent).

Receipt of the Consent Fee by a consenting holder will result in a "significant modification" of such consenting holder's Notes for United States federal income tax purposes, resulting in a deemed exchange of such consenting holder's Notes. Such a deemed exchange will be a taxable event (unless a non-recognition provision were to apply). Holders should consult their own tax advisors regarding the tax consequences of the Consent Solicitation.

The Supplement dated June 15, 2022 describes certain revisions to the Proposed Amendment and includes updated disclosure regarding tax consequences to the holders of the Notes in connection with the Consent Solicitation.

Holders of the Notes are referred to the Statement for the detailed terms and conditions of the Consent Solicitation, all of which remain unchanged except as set forth in this release and the Supplement dated June 15, 2022. Holders of the Notes who have validly delivered their consents with respect to the Proposed Amendment do not need to deliver new consents or take any other action in response to this announcement in order to consent to the Proposed Amendment. Consents (whether previously or hereafter delivered) with respect to the Proposed Amendment may not be revoked once given, except in the limited circumstances described in the Statement.

CRC reserves the right to modify the Statement and the terms and conditions of the Consent Solicitation or to terminate the Consent Solicitation at any time.
