About NexGen

NexGen is a British Columbia corporation focused on the development of the Rook I Project located in the southwestern part of the Athabasca Basin, Saskatchewan, Canada, into production. The Rook I Project is supported by a NI 43-101 compliant Feasibility Study which outlines elite environmental performance as well as industry leading economics. Rook I hosts the Arrow Deposit that has Measured Mineral Resources of 209.6 M lbs of U₃O₈ contained in 2.18 M tonnes grading 4.35% U₃O₈, Indicated Mineral Resources of 10.1 M lbs of U₃O₈ contained in 0.2 M tonnes grading 4.35% U₃O₈.

Resources of 47.1 M lbs of U₃O₈ contained in 1.57 M tonnes grading 1.36% U₃O₈, and Inferred Mineral Resources of 8 M lbs of U₃O₈ contained in 4.40 M tonnes grading 0.83% U₃O₈.

NexGen has a highly experienced team of uranium industry professionals with a successful track record in the discovery of uranium deposits and in developing projects through discovery to production. The Company is the recipient of the 2018 PDAC Environmental and Social Responsibility Award for Canadian mineral discovery and the 2019 PDAC Environmental and Social Responsibility Award.

Technical Disclosure

All technical information in this news release has been reviewed and approved by Anthony (Tony) George , P.Eng., NexGen's Chief Project Officer, a qualified person under National Instrument 43-101.

A technical report in respect of the FS is filed on SEDAR (www.sedar.com) and EDGAR (www.sec.gov/edgar.shtml) and is available for review on NexGen Energy's website (www.nexgenenergy.ca).

Cautionary Note to U.S. Investors

This news release includes Mineral Reserves and Mineral Resources classification terms that comply with reporting standards in Canada and the Mineral Reserves and the Mineral Resources estimates are made in accordance with NI 43-101. NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure of scientific and technical information concerning mineral projects. These standards differ from the requirements of the Securities Exchange Commission ("SEC") set by the SEC's rules that are applicable to domestic United States reporting companies. Consequently, Mineral Reserves and Mineral Resources information included in this news release is not comparable to information that would generally be disclosed by domestic U.S. reporting companies subject to the reporting and disclosure requirements of the SEC. Accordingly, information concerning mineral deposits set forth herein may not be comparable to information made public by companies that report in accordance with U.S. standards.

Forward-Looking Information

The information contained herein contains "forward-looking statements" within the meaning of applicable United States laws and regulations and "forward-looking information" within the meaning of applicable Canadian securities legislation. "Forward-looking information" includes, but is not limited to, statements with respect to mineral reserve and mineral resource estimates, the 2021 Arrow Deposit, Rook I Project and estimates of uranium production, grade and long-term average uranium prices, anticipated effects of completed drill results on the Rook I Project, planned work programs, completion of further investigations and engineering work to support basic engineering of the project and expected outcomes. Generally, but not exclusively, forward-looking information and statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes" or the negative connotation thereof or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "may not be taken", "occur" or "be achieved" or the negative connotation thereof. Statements relating to "mineral resources" are deemed to be forward-looking information, as they involve the implied assessment that, based on certain estimates and assumptions, the mineral resources described can be profitably produced in the future.

Forward-looking information and statements are based on the then current expectations, beliefs, assumptions, estimates and forecasts about NexGen's business and the industry and markets in which it operates. Forward-looking information and statements are made based upon numerous assumptions, including among others, that the mineral reserve and resource estimates are based on key assumptions and parameters on which such estimates are based are as set out in this news release and the technical data for the property, the results of planned exploration activities are as anticipated, the price and market supply of uranium are as anticipated, planned exploration activities, that financing will be available if and when needed and on reasonable terms, that third party contractors, equipment, supplies and governmental and other approvals required to conduct NexGen's planned exploration activities will be available on reasonable terms and in a timely manner and that general business and economic conditions will not change in a material adverse manner. Although the assumptions made by the Company in providing forward looking information and making forward looking statements are considered reasonable by management at the time, there can be no assurance that the assumptions will prove to be accurate in the future.

Forward-looking information and statements also involve known and unknown risks and uncertainties and other factors that may cause actual results, performances and achievements of NexGen to differ materially from any projections of results, performance and achievements of NexGen expressed or implied by such forward-looking information or statements, including, among others, the existence of negative operating cash flow and dependence on third party financing, uncertainty of the availability of

financing, the risk that pending assay results will not confirm previously announced preliminary results, conclusions of valuations, the risk that actual results of exploration activities will be different than anticipated, the cost of labour, equipment and materials will increase more than expected, that the future price of uranium will decline or otherwise not rise to an extent that would offset the appeal of alternate sources of energy to uranium-produced energy, that the Canadian dollar will strengthen against the US dollar, that mineral resources and reserves are not as estimated, that actual costs or actual results of reclamation activities will be greater than expected, that changes in project parameters and plans continue to be refined and may result in increased costs, unanticipated variations in mineral resources and reserves, grade or recovery rates or other risks generally associated with exploration, unanticipated delays in obtaining governmental, regulatory or First Nations approvals, risks related to First Nations title and consultation, reliance upon key management and other personnel, deficiencies in the Company's title to its properties, title risks, failure to manage conflicts of interest, failure to obtain or maintain required permits and licences, risks related to compliance with laws, regulations, policy and public perception, as well as those factors or other risks as more fully described in NexGen's 2021 Information Form dated February 25, 2022 filed with the securities commissions of all of the provinces of Canada except Ontario and in NexGen's 40-F filed with the United States Securities and Exchange Commission, which are available on SEDAR at www.sedar.com and Edgar at www.sec.gov.

Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in the forward-looking information or statements or implied by forward-looking information or statements, there are many other factors that cause results not to be as anticipated, estimated or intended. Readers are cautioned not to place undue reliance on forward-looking information or statements due to the inherent uncertainty thereof.

There can be no assurance that forward-looking information and statements will prove to be accurate, as actual results and events could differ materially from those anticipated, estimated or intended. Accordingly, readers should not place undue reliance on forward-looking statements or information. The Company undertakes no obligation to update or revise forward-looking information as a result of new information or events except as required by applicable securities laws.
