ABOUT ANGEL WING METALS

Angel Wing Metals (TSXV: AWM) is focused on the exploration and development of its portfolio of precious metals properties in Mexico and Canada. The Company's flagship El Grande gold project covers 550 square kilometers in the southern extension of the prolific Sierra Madre Occidental gold-silver belt in the state of Nayarit, Mexico and demonstrating significant gold and silver mineralization.

The Company also owns two early-stage gold exploration projects in Northwestern Ontario, in which the Company is engaged in ongoing exploration. The Winora Project is located near Lingman lake, 325 km north of Red Lake and consists of 17 patented mining claims in that are estimated to be within 500 m and on strike with the historic Lingman Lake gold deposit. The Quartz Lake Project is located 50km east of the prolific Red Lake district and demonstrates many similar geological features of other successful exploration plays in the region.

Angel Wing Metals is committed to sustainable and responsible exploration and business activities in line with industry best practices, supportive of all stakeholders, including the local communities in which the Company operates.
