Ovintiv Reports Second Quarter 2022 Financial and Operating Results

03.08.2022 | <u>CNW</u>

20.11.2025 Seite 1/13

Shareholder Returns Doubled, Highest Quarterly Cash Flow in Over a Decade

Highlights:

- Generated second quarter net earnings of \$1.36 billion, Non-GAAP Cash Flow of \$1.22 billion and Non-GAAP Fr Flow of \$713 million
- Doubled shareholder returns from 25% to 50% of Non-GAAP Free Cash Flow after base dividends beginning in Jone quarter sooner than previously planned
- Returned approximately \$200 million to shareholders in the second quarter via share buybacks and base divident
 Company expects to return approximately \$389 million in the third quarter
- Redeemed the entire aggregate principal amount of its 2024 notes totaling approximately \$1 billion
- Reduced Net Debt by \$610 million during the quarter; Company expects to achieve its \$3 billion Net Debt target to end of the year
- Announced agreements to sell portions of its Uinta and Bakken assets in July for approximately \$250 million before adjustments
- Delivered second quarter total production of 500 thousand barrels of oil equivalent per day ("MBOE/d"), at the hig Company guidance; oil and condensate production averaged 175 thousand barrels per day ("Mbbls/d"), at the hig Company guidance

DENVER, Aug. 3, 2022 - Ovintiv Inc. (NYSE: OVV) (TSX: OVV) ("Ovintiv" or the "Company") today announced its second 2022 financial and operating results. The Company plans to hold a conference call and webcast at 8:00 a.m. MT (10:00 on August 4, 2022. Please see dial-in details within this release, as well as additional details on the Company's websited www.ovintiv.com.

"In the second quarter, we delivered our highest quarterly cash flow and free cash flow in over a decade - this result refusal value we are generating with our culture of innovation, leading capital efficiency, top tier multi-basin portfolio and discip allocation," said Ovintiv President & CEO Brendan McCracken. "We are resolute in our goal to unlock value for our share we expect to deliver more than \$1 billion to our shareholders in 2022 and assuming current strip pricing, we expect share turns to more than double in 2023."

Second Quarter 2022 Financial and Operating Results

- The Company reported net earnings of \$1.36 billion after-tax, or \$5.21 per diluted share in the second quarter.
- Second quarter cash from operating activities was \$1.34 billion, Non-GAAP Cash Flow was \$1.22 billion and cap investment totaled \$511 million, resulting in \$713 million of Non-GAAP Free Cash Flow.
- Second quarter total production was 500 MBOE/d, including 175 Mbbls/d of oil and condensate, 87 Mbbls/d of otl and 1,426 million cubic feet per day ("MMcf/d") of natural gas. Natural gas volumes were negatively impacted in t due to higher Canadian royalty rates.
- Total Costs were \$16.71 per barrel of oil equivalent ("BOE"). Per unit costs were higher in the quarter due to stroic commodity prices directly impacting commodity linked cost items.
- Excluding the impact of risk management losses, second quarter 2022 average realized prices were \$107.16 per and condensate (99% of WTI), \$37.03 per barrel for other NGLs (C2-C4) and \$6.78 per thousand cubic feet ("Mc gas (95% of NYMEX) resulting in a total average realized price of \$63.36 per BOE.

2022 Guidance

Ovintiv's full year 2022 capital guidance is unchanged. Full year production volumes have been adjusted to include the non-core asset sales which were announced in July, the impact of higher-than-expected Canadian royalty rates which reported volumes and the impact of recent higher line pressures in third party midstream facilities in the Anadarko. The Total Cost guidance has increased slightly due to the impact of higher-than-expected natural gas prices for the remaind year and additional downstream capacity contracted with third parties in the Montney and Permian plays. Ovintiv's third quarter and full year 2022 guidance is below. The guidance assumes commodity prices of \$100/bbl for WTI oil and \$8/INYMEX natural gas for the remainder of the year.

Natural Gas (MMcf/d)	1,440 - 1,500	1,440 - 1,500	1,450 - 1,475	
Total Costs (1) (\$/MBOE)	\$16.50 - \$17.00	\$16.75 - \$17.25	\$16.35 - \$16.60	

1) Total Costs is a Non-GAAP measure as defined in Note 1. Total Costs per BOE is calculated using whole dollars and volumes.

Share Buyback Program

During the second quarter, Ovintiv purchased for cancellation, approximately 2.8 million shares of common stock outstanding for a total consideration of approximately \$135 million. As of June 30, 2022, the Company had repurchased a total of approximately 7.6 million shares of common stock at an average price of \$41.80 per share, for a total of \$317 million since its share buyback program was announced in September of 2021.

Dividend Declared

On August 3, 2022, Ovintiv's Board declared a quarterly dividend of \$0.25 per share of common stock payable on September 30, 2022, to shareholders of record as of September 15, 2022.

Increasing Direct Returns to Shareholders

In July 2022, Ovintiv increased its returns to shareholders from 25% to 50% of the previous quarter's Non-GAAP Free Cash Flow after base dividends through share buybacks. The remaining Non-GAAP Free Cash Flow will primarily be allocated to continued Net Debt reduction and property bolt-ons.

In the third quarter of 2022, the Company plans to deliver approximately \$389 million to shareholders through its base dividend of approximately \$64 million and share buybacks totalling approximately \$325 million. The third quarter buyback program, at \$325 million, exceeds the total dollars spent on buybacks since the Company's new capital allocation framework was announced in September of 2021. This will bring total direct shareholder returns to approximately \$900 million over the 12-month period.

Continued Focus on Balance Sheet Strength and Debt Reduction

Ovintiv remains committed to reducing Net Debt. At the end of the second quarter, Ovintiv's Net Debt was approximately \$3.9 billion and Net Debt to Adjusted EBITDA was 1.0 times. The Company expects to meet its \$3 billion Net Debt target by the end of the year.

In June, the Company redeemed its \$1,000 million, 5.625 percent senior notes due July 1, 2024, using cash on hand and proceeds from short term borrowings. Ovintiv paid approximately \$1,072 million in cash including accrued and unpaid interest of \$25 million and a one-time make-whole payment of \$47 million. The redemption will result in approximately \$55 million of annualized interest expense savings.

In addition, the Company repurchased a portion of its 6.5 percent senior notes due August 2034, its 6.5 percent senior notes due February 2038 and its 5.15 percent senior notes due in November 2041 in the open market. As of June 30, 2022, the aggregate cash payments related to the note repurchases were approximately \$60 million, plus accrued interest.

As of June 30, 2022, the Company had \$215 million of commercial paper outstanding and no outstanding balances under its revolving credit facilities.

Non-Core Asset Sales

20.11.2025 Seite 3/13

In July 2022, Ovintiv announced it had reached agreements with two counterparties to sell portions of its assets located in the Uinta and Bakken basins for total proceeds of approximately \$250 million before closing adjustments. As of April 2022, the combined volumes from the divested assets totaled approximately 5.0 MBOE/d, including 4.9 Mbbls/d of oil and condensate.

Asset Highlights

Permian

Permian production averaged 116 MBOE/d (79% liquids) in the second quarter. The Company averaged three gross rigs, drilled 16 net wells, and had 11 net wells turned in line (TIL).

The Company plans to spend \$650 to \$700 million in the basin in 2022.

Anadarko

Anadarko production averaged 128 MBOE/d (63% liquids) in the second quarter. The Company averaged three gross rigs, drilled 18 net wells, and had 15 net wells TIL.

The Company plans to spend \$350 to \$400 million in the basin in 2022.

Montney

Montney production averaged 198 MBOE/d (24% liquids) in the second quarter. The Company averaged three gross rigs, drilled 16 net wells and had 12 net wells TIL.

Ovintiv recently contracted for 245 billion British thermal units (BBTU) per day of incremental transport to the Chicago market beginning November 1st, 2022, for a term greater than 10 years. This additional transportation supplements the Company's existing market access to Eastern Canada, California, the Pacific Northwest, and the Midwest. Assuming production levels flat with the first half of 2022, the combination of market access arrangements and AECO basis hedges will result in approximately 80% to 85% of Ovintiv's Montney natural gas production to price outside the AECO market for the 2023 to 2025 period.

The Company plans to spend \$300 to \$350 million in the basin in 2022.

For additional information, please refer to the second quarter 2022 Results Presentation at: https://investor.ovintiv.com/presentations-events.

Conference Call Information

A conference call and webcast to discuss the Company's second quarter results will be held at 8:00 a.m. MT (10:00 a.m. ET) on August 4, 2022. To participate in the call, please dial 888-664-6383 (toll-free in North America) or 416-764-8650 (international) approximately 15 minutes prior to the conference call. The live audio webcast of the conference call, including slides and financial statements, will be available on Ovintiv's website, www.ovintiv.com under Investors/Presentations and Events. The webcast will be archived for approximately 90 days.

Refer to Note 1 Non-GAAP measures and the tables in this release for reconciliation to comparable GAAP financial measures.

Important information

Unless otherwise noted, Ovintiv reports in U.S. dollars and production, sales and reserves estimates are

20.11.2025 Seite 10/13

reported on an after-royalties basis. Unless otherwise specified or the context otherwise requires, references to Ovintiv or to the Company includes reference to subsidiaries of and partnership interests held by Ovintiv Inc. and its subsidiaries.

NOTE 1: Non-GAAP measures

Certain measures in this news release do not have any standardized meaning as prescribed by U.S. GAAP and, therefore, are considered non-GAAP measures. These measures may not be comparable to similar measures presented by other companies and should not be viewed as a substitute for measures reported under U.S. GAAP. These measures are commonly used in the oil and gas industry and/or by Ovintiv to provide shareholders and potential investors with additional information regarding the Company's liquidity and its ability to generate funds to finance its operations. For additional information regarding non-GAAP measures, see the Company's website. This news release contains references to non-GAAP measures as follows:

- Non-GAAP Cash Flow is a non-GAAP measure defined as cash from (used in) operating activities excluding net
 other assets and liabilities, net change in non-cash working capital and current tax on sale of assets.
- Non-GAAP Cash Flow Margin is a non-GAAP measure defined as Non-GAAP Cash Flow per BOE of production.
 Non-GAAP Free Cash Flow is a non-GAAP measure defined as Non-GAAP Cash Flow in excess of capital experiences.
- Non-GAAP Free Cash Flow is a non-GAAP measure defined as Non-GAAP Cash Flow in excess of capital experexcluding net acquisitions and divestitures.
- Non-GAAP Operating Earnings is a non-GAAP measure defined as net earnings excluding non-recurring or non-that Management believes reduces the comparability of the Company's financial performance between periods. It may include, but are not limited to, unrealized gains/losses on risk management, impairments, restructuring charge non-operating foreign exchange gains/losses, gains/losses on divestitures and gains on debt retirement. Income includes adjustments to normalize the effect of income taxes calculated using the estimated annual effective income addition, any valuation allowances are excluded in the calculation of income taxes.
- Total Costs is a non-GAAP measure which includes the summation of production, mineral and other taxes, upstream sportation and processing expense, upstream operating expense and administrative expense, excluding the ilong-term incentive, restructuring and legal costs, and current expected credit losses. It is calculated as total oper expenses excluding non-upstream operating costs and non-cash items which include operating expenses from the Optimization and Corporate and Other segments, depreciation, depletion and amortization, impairments, accretion retirement obligation, long-term incentive, restructuring and legal costs, and current expected credit losses. When on a per BOE basis, Total Costs is divided by production volumes. Management believes this measure is useful to Company and its investors as a measure of operational efficiency across periods.
- Net Debt is defined as long-term debt, including the current portion, less cash and cash equivalents. Adjusted EB defined as trailing 12-month net earnings (loss) before income taxes, DD&A, impairments, accretion of asset retir obligation, interest, unrealized gains/losses on risk management, foreign exchange gains/losses, gains/losses on and other gains/losses. Net Debt to Adjusted EBITDA is a non-GAAP measure monitored by management as an the Company's overall financial strength.
- Debt to Adjusted Capitalization is a non-GAAP measure which adjusts capitalization for historical ceiling test imparative recorded as at December 31, 2011. Management monitors Debt to Adjusted Capitalization as a proxy for the financial covenant under the Credit Facilities which require debt to adjusted capitalization to be less than 60 perconstruction incudes debt, total shareholders' equity and an equity adjustment for cumulative historical ceiling to impairments recorded as at December 31, 2011 in conjunction with the Company's January 1, 2012 adoption of University.

ADVISORY REGARDING OIL AND GAS INFORMATION - The conversion of natural gas volumes to barrels of oil equivalent (BOE) is on the basis of six thousand cubic feet to one barrel. BOE is based on a generic energy equivalency conversion method primarily applicable at the burner tip and does not represent economic value equivalency at the wellhead. Readers are cautioned that BOE may be misleading, particularly if used in isolation. The term "liquids" is used to represent oil, NGLs and condensate. The term "condensate" refers to plant condensate.

ADVISORY REGARDING FORWARD-LOOKING STATEMENTS - This news release contains forward-looking statements or information (collectively, "forward-looking statements") within the meaning of applicable securities legislation, including Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, except for statements of historical fact, that relate to the anticipated future activities, plans, strategies, objectives or expectations of the Company are forward-looking statements. When used in this news release, the use of words and phrases including "anticipates," "believes," "continue," "could," "estimates," "expects," "focused on," "forecast," "guidance," "intends," "maintain," "may," "opportunities," "outlook," "plans," "potential," "strategy," "targets," "will," "would" and other similar terminology is intended to identify forward-looking statements, although not all forward-looking statements contain such identifying words or phrases. Readers are cautioned against unduly relying on forward-looking statements which, by their nature, involve numerous

20.11.2025 Seite 11/13

assumptions and are subject to both known and unknown risks and uncertainties (many of which are beyond our control) that may cause such statements not to occur, or actual results to differ materially and/or adversely from those expressed or implied. These assumptions include: future commodity prices and basis differentials; the ability of the Company to access credit facilities and shelf prospectuses; future foreign exchange rates; the Company's ability to capture and maintain gains in productivity and efficiency; data contained in key modeling statistics; availability of attractive commodity or financial hedges; benefits from technology and innovation; assumed tax, royalty and regulatory regimes; expectations and projections made in light of the Company's historical experience; and the other assumptions contained herein. Risks and uncertainties that may affect the Company's financial or operating performance include: market and commodity price volatility; uncertainties, costs and risks involved in our operations, including hazards and risks incidental to both the drilling and completion of wells and the production, transportation, marketing and sale of oil, NGL and natural gas; availability of equipment, services, resources and personnel required to perform the Company's operating activities; service or material cost inflation; our ability to generate sufficient cash flow to meet our obligations and reduce debt; the impact of a pandemic, epidemic or other widespread outbreak of an infectious disease (such as the ongoing COVID-19 pandemic) on commodity prices and the Company's operations; our ability to secure adequate transportation and storage for oil, NGL and natural gas; interruptions to oil, NGL and natural gas production; discretion of the Company's Board of Directors to declare and pay dividends; the timing and costs associated with drilling and completing wells; business interruption, property and casualty losses (including weather related losses) and the extent to which insurance covers any such losses; counterparty and credit risk; the actions of members of OPEC and other state-controlled oil companies with respect to oil, NGLs and natural gas production; the impact of changes in our credit rating and access to liquidity; changes in political or economic conditions in the United States and Canada; risks associated with technology, including electronic, cyber and physical security breaches; changes in royalty, tax, environmental, GHG, carbon, accounting and other laws or regulations or the interpretations thereof; our ability to timely obtain environmental or other necessary government permits or approvals; risks associated with existing and potential lawsuits and regulatory actions; risks related to the purported causes and impact of climate change; the impact of disputes arising with our partners; the Company's ability to acquire or find additional oil and natural gas reserves; imprecision of oil and natural gas reserves estimates and estimates of recoverable quantities; risks associated with past and future acquisitions or divestitures; our ability to repurchase the Company's outstanding shares of common stock; the existence of alternative uses for the Company's cash resources which may be superior to the payment of dividends or share repurchases; land, legal, regulatory and ownership complexities inherent in the U.S., Canada; failure to achieve or maintain our cost and efficiency initiatives; risks and uncertainties described in Item 1A. Risk Factors of the Company's most recent Annual Report on Form 10-K and Quarterly Report on Form 10-Q; and other risks and uncertainties impacting the Company's business as described from time to time in the Company's periodic filings with the SEC or Canadian securities regulators.
