

Western Potash Holdings Corp. Receives Second Tranche of \$17 Million Equity Funding From Vantage Chance Limited

31.07.2022 | [GlobeNewswire](#)

VANCOUVER, July 30, 2022 - [Western Resources Corp.](#) ("Western" or the "Company") (TSX: WRX) is pleased to announce that its subsidiary company Western Potash Holding Corp. ("WPHC") has received the second tranche of its equity funding proceeds from Vantage Chance Limited ("Vantage") in the amount of \$17 million on July 29, 2022, as part of the previously announced Investment Transaction (as set out in a press release dated February 16, 2022), in exchange for the issuance to Vantage of 33,431,578 common shares of WPHC. Upon issuance, Vantage will hold approximately 42.32% of the issued and outstanding common shares of WPHC, which in turn owns 100% of Western Potash Corp. (which itself owns Milestone Potash Project (the "Project")).

The first tranche of Vantage's equity investment in WPHC in the amount of \$33 million closed on May 25, 2022 and resulted in the issuance to Vantage of 64,896,592 common shares of WPHC. With consideration of the Project construction and development funding usage schedule, however, Vantage and WPHC agreed to a Second Amended and Restated Subscription Agreement dated July 28, 2022, allowing Vantage to purchase the previously agreed additional 92,428,479 common shares in two tranches – the Second Tranche and the Third Tranche. The Second Tranche, in the amount of \$17 million, closed on July 29, 2022 this Friday. The remaining investment of \$30 million is expected to close on or before September 30, 2022. Pursuant to the Subscription Agreement, Vantage has committed to make a strategic equity investment of C\$80,000,000 in WPHC.

About Western Resources Corp.

Western Resources Corp. and its subsidiary company Western Potash Corp. are constructing one of Canada's newest and most innovative, environmentally friendly and capital-efficient potash mines. It is expected to be the first potash mine internationally to leave no salt tailings at the surface, thereby reducing the water consumption by approximately half as well as significantly improving energy efficiency. Successful completion of the Project will form the basis for further expansion.
