TSX: TVE

CALGARY, Sept. 22, 2022 - [Tamarack Valley Energy Ltd.](#) ("Tamarack" or the "Company") (TSX: TVE) announces that successfully closed the previously announced private placement offering (the "Private Placement") of \$100 million aggregate principal amount of 7.25% senior unsecured sustainability-linked notes due May 10, 2027 (the "Notes"). The Company will use the net proceeds of the Private Placement to fund a portion of the purchase price for Tamarack's previously announced acquisition of Deltastream Energy Corporation (the "Acquisition").

The Notes were issued at \$940 per \$1,000 principal amount thereof (plus accrued interest from and including May 10, 2022, but excluding the date hereof) under the trust indenture pursuant to which Tamarack previously issued \$200 million aggregate principal amount of 7.25% senior unsecured sustainability-linked notes due May 10, 2027, as supplemented by a supplemental indenture dated as of the date hereof, and form a single series with such previously issued notes.

The Notes are being issued in accordance with Tamarack's Sustainability-Linked Bond Framework (the "SLB Framework") which sets out certain sustainability performance targets ("SPTs") that are aligned with Tamarack's overall corporate sustainability strategy, including: i) Scope 1 and 2 emissions intensity reductions of 39% by 2025 over the 2020 baseline; ii) Indigenous workforce participation of 6% or greater by 2025. Details of the SLB Framework are available on the Company's website. Failure to meet the SPTs will result in a step-up in the interest rate payable of 75 basis points for the emissions intensity reduction SPT and 25 basis points for the Indigenous workforce participation SPT from and including May 10, 2026.

RBC Capital Markets and National Bank Financial Markets acted as Joint-Bookrunners and Sustainability-Linked Bond Structuring Advisors for the Private Placement. S&P Global Markets has previously provided a second party opinion on the SLB Framework, confirming alignment with the International Capital Market Association's Sustainability-Linked Bond Principles.

The Private Placement was not conditional upon completion of the Acquisition. In the event the Acquisition is not completed, Tamarack may use the net proceeds of the Private Placement to reduce indebtedness, fund future acquisitions and for other corporate purposes. Prior to the closing of the Acquisition, the net proceeds may, from time to time, be invested in interest-bearing deposits or in short-term interest bearing or discount debt obligations or other short-term investments (in each case, either Canadian or U.S. dollars).
