

Gratomic Provides Updated Corporate Presentation For 2022

26.09.2022 | [ACCESS Newswire](#)

TORONTO, September 26, 2022 - [Gratomic Inc.](#) ("Gratomic", "GRAT," or the "Company") (TSXV:GRAT) (OTCQX:CBULF) (FSE:CB82) provides an updated corporate presentation. This presentation highlights the noteworthy progress the Company has made in the last year and serves to update investors with the most current information available for the Company's original (Aukam and Buckingham) and new (Capim Grosso, Jacobina and Igrapiuna) projects.

The corporate presentation provides updated information on the Company's Aukam processing plant and its Capim Grosso project along with a technical appendix which includes details about Aukam, Capim Grosso, Jacobina, Igrapiuna and Buckingham.

The presentation has been updated to ensure it reflects the most up-to-date and accurate information and enables Gratomic to convey essential Company information to shareholders and stakeholders.

The link to the new presentation can be found [HERE](#)

About Gratomic

Gratomic is a multinational company with projects in Namibia, Brazil, and Canada. The Company is focused on becoming a leading global graphite supplier and aims to secure a strong position in the EV battery supply chain. With the continued development of its flagship Aukam project and further exploration on the Company's Capim Grosso property, Gratomic sets itself apart by seeking out unique top-quality assets around the world. True to its roots, the Company will continue to explore graphite opportunities displaying potential for development. The Company ranked third place in the top 10 preforming mining stocks on the 2022 TSX Venture 50™

Large quantities of high-quality vein graphite have been shipped for testing to confirm its viability as an anode material. Gratomic is confident that the test results will provide a unique competitive advantage in its desired target markets. The Company will continue to update the public on the status of these tests and will provide results as soon as they become available.

The Company has formed a collaboration agreement with Forge Nano. With its patented ALD coating, this cooperation with Forge Nano is a key element to support Gratomic's strategies towards the value-added phases of production of graphite for anode applications, namely micronization, spheronization and coating, making Gratomic graphite a preferred choice for use in lithium-ion batteries.
