<u>Vast Resources Plc</u>, the AIM-listed mining company, is pleased to announce that following the successful opening of the Takob Mine Processing Project at the Takob Mine in Tajikistan ("the Project") with Open Joint Stock Company Korkhanai Boygardonii Takob ("Takob") it has signed an exclusive offtake contract with Trafigura PTE. Ltd, one of the world's leading independent commodity trading and logistics companies for the sale of bulk concentrates produced via the Project.

As previously announced, the Company's interest in the Project is via Central Asia Investments Ltd, in which Vast has a 49 percent interest of a 50 percent interest in Central Asia Minerals and Metals Ore Trading FZCO ("CAMM") which has an agreement with Takob (the "Master Agreement").

Under the Master Agreement the Mine is to produce approximately 7,000 tonnes per month of ore containing no less than 1.5-2% lead, 1.2-1.4% zinc and 27% fluoride.

Takob will continue to mine ore at the Mine and produce fluoride concentrate. Takob has undertaken to supply no less than 1,000,000 tonnes of ore to be processed in line with the Project that is anticipated to run with the current Resource statement for 12 years.

CAMM has also under the Master Agreement been appointed as exclusive agent for Takob to market and sell all non ferrous concentrates and precious metals from Takob's Mine including but not limited to lead, zinc, gold and silver.

The Company and Trafigura have agreed terms and conditions for Trafigura to purchase Bulk Concentrate with Lead, Zinc, Gold and Silver as the payables under a market standard priced contract.

Vast will receive a participation equivalent to a 12.25 percent royalty over all sales of non-ferrous concentrate and any other metals produced from the Takob Processing Project.
