

# Canada Silver Works Inc. Announces Fully Subscribed Flow-Through Private Placement

19.10.2022 | [The Newswire](#)

Silver Cobalt Works Inc. (TSXV:CCW) (OTC:CCWOF) (Frankfurt:4T9B) (the "Company" or "Canada Silver Cobalt") is pleased to announce a fully subscribed non-brokered private placement by issuing 13,681,819 Quebec flow-through units ("QFT Units") at a price of \$0.11 per QFT Unit raising gross proceeds of \$1,505,000. The Company will also be issuing 3,000,000 FT Units ("FT Units") at a price of \$0.10 per FT Unit raising gross proceeds \$300,000. The Company is raising a total of \$1,805,000.

Each QFT and FT Unit is comprised of one flow-through common share of the Company and one half of one share purchase warrant. Each whole warrant will entitle the holder thereof to purchase one additional common share of the Company at an exercise price of \$0.15 per share, for a period of two years from closing, subject to TSX Venture Exchange ("Exchange") approval.

The proceeds of the FT private placement will be used for ongoing drilling of the Company's Eby-Otto property located near Kirkland Lake, Ontario. The proceeds of the QFT private placement will be used for the Company's Lowney-Lac Edouard property, located in central Quebec.

Finder's fees to in the amount of \$144,350 cash and 1,339,046 warrants will be paid in connection with the financing. The finder's warrants are at an exercise price of \$0.11 per share, for a period of two years from closing. The finder's fees paid in connection with the private placement are subject to Exchange approval.

All securities issued in connection with the private placement will be subject to a four-month and a day hold period in accordance with applicable Canadian Securities Laws.

About Canada Silver Cobalt Works Inc.

[Canada Silver Cobalt Works Inc.](#) recently discovered a major high-grade silver vein system at Castle East located 1.5 km from its 100%-owned, past-producing Castle Mine near Gowganda in the prolific and world-class silver-cobalt mining district of Northern Ontario. The Company has completed a 60,000m drill program aimed at expanding the size of the deposit with an update to the resource estimate underway.

In May 2020, based on a small initial drill program, the Company published the region's first 43-101 resource estimate that contained a total of 7.56 million ounces of silver in Inferred resources, comprising very high-grade silver (8,582 grams per tonne un-cut or 250.2 oz/ton) in 27,400 tonnes of material from two sections (1A and 1B) of the Castle East Robinson Zone, beginning at a vertical depth of approximately 400 meters. Note that mineral resources that are not mineral reserves do not have demonstrated economic viability. Please refer to Canada Silver Cobalt Works Press Release May 28, 2020, for the resource estimate. Report reference: Rachidi, M. 2020, NI 43-101 Technical Report Mineral Resource Estimate for Castle East, Robinson Zone, Ontario, Canada, with an effective date of May 28, 2020, and a signature date of July 13, 2020.

The Company also has: (1) 14 battery metals properties in Northern Quebec where it has recently completed an almost 15,000-metre drill program on the Graal property and an airborne VTEM geophysical survey recently completed at its Lowney-Lac Edouard property; and (2) the prospective 1,000-hectare Eby-Otto gold property close to Agnico Eagle's high-grade Macassa Mine near Kirkland Lake, Ontario where it is exploring in 2022.

Canada Silver Cobalt's flagship silver-cobalt Castle mine and 78 sq. km Castle Property feature strong exploration upside for silver, cobalt, nickel, gold, and copper. With underground access at the fully owned Castle Mine, an exceptional high-grade silver discovery at Castle East, a pilot plant to produce cobalt-rich

gravity concentrates, a processing facility (TTL Laboratories) in the town of Cobalt, and a proprietary hydrometallurgical process known as Re-2Ox (for the creation of technical-grade cobalt sulphate as well as nickel-manganese-cobalt (NMC) formulations), Canada Silver Cobalt is strategically positioned to become a Canadian leader in the silver-cobalt space.
