

Bold Engages Investing News Network and Updates Burchell Gold-Copper Project

01.11.2022 | [ACCESS Newswire](#)

TORONTO, November 1, 2022 - [Bold Ventures Inc.](#) (TSXV:BOL) (the "Company" or "Bold") is pleased to announce that it has entered into an advertising and investor awareness campaign with Dig Media Inc., dba Investing News Network ("INN"). Based in Vancouver, Canada, INN has offices in Toronto, New York and San Francisco. INN has been dedicated to providing independent news and education to investors since 2007. The term of the engagement is seven months with the option to renew on the same terms for an additional six-month period. The cost of the campaign is \$24,000 payable as \$12,000 in common shares of Bold after the initial three-month period on January 31, 2023 and \$12,000 in common shares of Bold after six months on April 30, 2023. Per TSX Venture Exchange ("TSXV") Policy 4.3 (Section 6.1), the deemed price of the securities to be issued will be based on the closing price the day before the payment is due. The transaction is subject to TSXV approval.

INN will expand Bold's name recognition and corporate message via digital and social media platforms resulting in greater market awareness of Bold's high potential projects and management's experience and successful track record of discoveries.

The prospecting field crew continues its work at the recently acquired Burchell Gold-Copper Project (see Bold press release dated April 28, 2022 and October 4, 2022) located in the Shebandowan Greenstone Belt 105 km west of Thunder Bay, Ontario. Bold has compiled historical and recent exploration results at the Burchell Gold-Copper project that will be enhanced by the prospecting and sampling program. The current program will also provide important logistical information related to access, ground conditions at the various mineral showings, historical trenches and drill hole collar locations.

Bold's ongoing exploration work at the Burchell Property indicates a persistent alteration trend along a northeast strike from the Hermia Cu-Au area. Additional mapping and prospecting is required to confirm the size and extent of this trend in the eastern portion of the property which has undergone very limited historical exploration activity.

The Company optioned the Burchell claims due to highly anomalous copper and gold mineralized trends as described in a NI 43-101 Technical Report on the Burchell Lake Property, Northwestern Ontario, by I. A. Osmani, M.Sc., P.Geo. dated October 12, 2017, that may be accessed [here](#).

The property location is central to a number of ongoing exploration programs to the north, northeast and west and is immediately adjacent to and along trend with the Goldshore Moss Lake resource. Goldshore is currently in the process of completing a 100,000 m diamond drilling program that was announced on July 30, 2021 ([Goldshore Resources Inc.](#) website, 2022).

The technical and scientific disclosures in this news release have been reviewed and approved by Gerald D. White, B.Sc., P.Geo., a qualified person (QP) under National Instrument 43-101

Bold Ventures management believes our suite of Battery, Critical and Precious Metals exploration projects are an ideal combination of exploration potential meeting future demand (see Bold Press release dated May 10, 2022). Our target commodities are comprised of: Copper (Cu), Nickel (Ni), Lead (Pb), Zinc (Zn), Gold (Au), Silver (Ag), Platinum (Pt), Palladium (Pd) and Chromium (Cr). The Critical Metals list and a description of the Provincial and Federal electrification plans are posted on the Bold website [here](#).

About Bold Ventures Inc.

The Company explores for Precious, Battery and Critical Metals in Canada. Bold is exploring properties

located in active gold camps within the Thunder Bay and Wawa regions of Ontario. Bold also holds significant assets located within and around the emerging multi-metals district dubbed the Ring of Fire region, located in the James Bay Lowlands of Northern Ontario.

As a result of the current COVID-19 virus concerns, the Company's management and contractors are following public guidelines and taking recommended steps to protect the health and safety of all personnel while carrying out operations. As a result of the COVID-19 pandemic giving rise to local and national anti-virus measures, the scheduling of activities is subject to change. COVID-19 impacts may affect timing and availability of goods and services for the foreseeable future.

Cautionary Note Regarding Forward-Looking Statements: This Press Release contains forward-looking statements that involve risks and uncertainties, which may cause actual results to differ materially from the statements made. When used in this document, the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "estimate", "expect" and similar expressions are intended to identify forward-looking statements. Such statements reflect our current views with respect to future events and are subject to such risks and uncertainties. Many factors could cause our actual results to differ materially from the statements made, including those factors discussed in filings made by us with the Canadian securities regulatory authorities. Should one or more of these risks and uncertainties, such actual results of current exploration programs, the general risks associated with the mining industry, the price of gold and other metals, currency and interest rate fluctuations, increased competition and general economic and market factors, occur or should assumptions underlying the forward looking statements prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, or expected. We do not intend and do not assume any obligation to update these forward-looking statements, except as required by law. Shareholders are cautioned not to put undue reliance on such forward-looking statements.
