

Nickel Creek Platinum Provides Update On Exploration Program

03.11.2022 | [CNW](#)

TORONTO, Nov. 3, 2022 - [Nickel Creek Platinum Corp.](#) (TSX: NCP) ("Nickel Creek" or the "Company") is pleased to announce the completion of its 2022 drilling and geophysics program at its Nickel Shāw Project in Canada's Yukon Territory with a total drilling of approximately 3,300 metres. The program included eight (8) holes with a total of approximately 2,000 metres of Prefeasibility Study ("PFS") drilling at the Wellgreen deposit which included drilling to support conversion of inferred mineral resources to indicated mineral resources and the collection of additional geotechnical and hydrogeological data including the characterization of the proposed waste dump and tailings sites. Further, the Company drilled 10 holes with a total of approximately 1,300 metres at the Arch exploration target with the objective to further define the extent of the mineralization discovered in 2021.

Samples have been delivered to the assay laboratory. The results, including analytical results of the full field drill program, are expected to be completed and released during the first quarter of 2023.
